APPEAL FOR UNITY AMONG CHURCHES

ANGLICAN RECTORS
OUTLINE ATTITUDE

Declare Present is Opportune
Time for Inauguration of
Movement

Montreal, Nov. 9.—A removal of restrictions which always existed under the canon law in the Anglican church is proposed by 20 Canadian clergymen, who have issued a circular addressed to their colleagues on the subject of Christian unity.

The circular is signed by rectors in Montreal, Toronto, Vancouver, Halifax, Saskatoon, Winnipeg, Toronto, Hamilton and other cities. It is not signed by any bishop or dean.

The circular is headed: "An appeal on behalf of Christian unity," and opens with the statement that the undersigned, feeling that the most important problem before the church at the present time being union, they have decided to send a brief statement of their convictions and of the policy which they desire to pursue, and at the same time, to ask for co-operation in the principal measures which are suggested.

Attention is then directed to the reasons for considering that the present moment is opportune for action of this kind, among which are set forth: (1) The encyclical and resolutions of the Lambeth conference of 1908 dealing sympathetically with the question of unity; (2) the sympathetic resolutions of the general synod of Canada in the same; (3) the trumpet call of the Edinburgh conference; (4) the missionary aspect; (5) the evidence of devotion and success in the reformed non-Episcopal churches; and (6) the Divine rebuke against religious exclusiveness.

The practical steps advocated for the moment are: (a) The admission of ministers of other churches, under certain restrictions and by rightful authority, to the pulpits of Anglican churches; (b) extension of permission to members of other churches in good standing on certain occasions to communicate.

ENTHUSIASTIC OVER CANADIAN WEST

SIR THOMAS LIPTON
ARRIVES ON COAST

Will Endeavor to Arrange
Race for America Cup on
Return to New York

Vancouver, Nov. 9.—Sir Thomas Lipton, who is enthusiastic over the possibilities of the Canadian west, arrived in the city last evening from the east.

Sir Thomas is accompanied by Col. F. D. Neil, a submarine mining engineer, an officer in the Territorial, who is also a famous yachting man, having raced successfully in the British Isles for over thirty years. F. W. Peters, general superintendent of the C. P. R., met the two distinguished visitors at Kamloops, and although a special car was tendered for their accommodation, Sir Thomas democratically declared that he preferred the day coaches and the smoking car, where things were not quite so painfully "exclusive."

"Come right up," invited the famous yachtsman last evening to the reporters at the Hotel Vancouver, "but don't ask me to talk politics," he cautioned, "for I don't know a hanged thing about them. I will talk on sport, though, if you like."

Sir Thomas Lipton, a tall, distinguished man, with a twinkle of unmistakable Scotch humor in his eye, opened the door of his suite himself and extended a hand that has guided many a tiller and has lifted many a jib. He brushed away a bundle of congratulatory telegrams which he had received from friends on the Pacific coast and sat down.

Referring to his intention of challenging again for the America Cup, Sir Thomas stated that while he did not want any favor, in fact, would not take any if it was offered, he did want an equal chance with the Americans. Under the present conditions and rules which governed the great event it was no honor for a country to hold the cup. It did not represent sport.

"My business in America is primarily to arrange a race when I return to

ain will allow the entry of the same craft under the same conditions."

Referring to the German Emperor, Sir Thomas declared that he had met fewer more unassuming and kinder men.

"One night in a beer garden," said he, "I sat on his left for three hours and discussed all the angles of yacht racing. J. Pierpont Morgan was on his right."

In addition to his yachting exploits Sir Thomas declared he had been guilty of meddling with the aeroplane with some success, and had made flights over Southampton. On one of these flights he had the honor of carrying Miss Asquith, daughter of the premier.

"How are you impressed with Canada?"

The knight met the inevitable query with enthusiasm: "It's the best yet," he declared.

"I have heard a lot of this Dominion," said he, "but have never seen the west before, and the west is the best part of it. The reports which have come to English, Scotch and Irish ears about it are in no way exaggerated. London capitalists should see the way people handle invested money here, and it would strengthen confidence in the country."

Referring to the Asiatic labor question on the Pacific coast, Sir Thomas declared that while he had 10,000 or more Hindus and blacks in his employ in the island of Ceylon, he did not wish to see them in conflict with white labor. They were good servants, however, sober and industrious and, above all, British subjects.

Sir Thomas and Col. Neil go to Victoria to-morrow. On Monday they will leave for Seattle and other coast cities before the overland trip to New York.

BITTER SPEECH BY UNIONIST LEADER

HON. F. E. SMITH REPLIES
TO UNDER SECRETARY

Scores F. D. Ackland for His
Criticism of Lord Roberts

London, Nov. 9.—Bitter and venomous was the reply of Right Hon. F. E. Smith in the House of Commons last night to the criticism of F. D. Ackland, under secretary of the foreign office, who attacked Lord Roberts for his determination to arouse the nation to a realization of what he considers its perilous situation as far as defence is concerned.

Following the foreign office under secretary's denunciation of the field marshal, Mr. Smith electrified the Commons with his counter attack.

"This priggish underling," he declared, "is a man of not the slightest account anywhere. He has the insolence to lift his tiny little tongue to squit his feeble venom over a man great enough to make the people forget that he (Ackland) ever lived."

Over 20,000 signatures have already been received from all classes to the Daily Express testimonial which is being prepared to express national appreciation to Lord Roberts for his efforts to encourage Great Britain to prepare for war.

COMPANY BLAMED FOR FATAL WRECK

Entirely Responsible If Rules
Clear Trainmen Within
Railway Yards

Brandon, Man., Nov. 9.—"We, the jury men, agree that the Canadian Pacific is entirely responsible for the death of A. Numan, if the rules clear trainmen of all responsibility within the yards."

Such was the verdict returned here by a jury, after long deliberations and on evidence in the case of the fatal railway accident here on Thursday night.

Ten or more railway men concerned in the accident gave evidence, and all testimony went to show that the first train was waiting at the yard and a second train came through a cloud of steam from an engine on the opposite track, also an engine of the second train was down to walking pace.

The conductor described it as unavoidable, but the coroner said he could not agree with this, and was astonished that more protection was not provided for people inside the yards, as well as outside.

RELEASED ON BAIL

Winnipeg, Nov. 9.—Dr. George Firestone, of Sarnia, N. D., who is in the jail at Clearwater charged with manslaughter, was admitted to bail yesterday in two sureties of \$1,000 each. Application was made before Chief Justice Mathers. The trial is fixed for the spring sessions at Morden.

WILL NOT ABANDON CONSTANTINOPLE

GRAND VIZIER'S MESSAGE
TO AMBASSADORS

Not Answerable for Events
Which May Follow Occu-
pation of Capital

Paris, Nov. 9.—"Neither I nor, the Sultan will ever abandon Constantinople. My sovereign will await death in his palace. I'm my office."

Thus Kiamil Pasha, Grand Vizier of Turkey, has addressed the ambassadors of the powers.

Kiamil Pasha informed the ambassadors in Constantinople that he would maintain order there until the end, according to a dispatch to the Matin to-day. If, however, the Turkish capital should be occupied by the invaders, the grand vizier declares that he could not be answerable for what the exasperation of the population might lead to. Anything that might happen then would be on the conscience of Europe, he said.

Noradundian Pasha, Turkish minister of foreign affairs, is directing affairs with singular tenacity and devotion in spite of his eighty-five years. He appears to be infusing new life into the population of the Turkish capital. For eleven days he has not left his office. He eats there and sleeps there, throwing himself in the early hours of the morning upon a military bed in order to snatch a few hours repose.

General Mahmud Mukhtar Pasha was sent by Nazim Pasha, the commander-in-chief, to notify the Grand Vizier that the Turkish army would not accept either mediation or intervention.

According to a special dispatch to the Journal from Constantinople the commander-in-chief declared that if the government did not heed the wishes of the army the soldiers would come to Constantinople and cannonade the offices to prevent the dismemberment of the Empire.

Revolution Threatened.

The leaders of the committee of the Union and Progress Association informed the Grand Vizier that there would be a terrible revolution unless the Turkish army continued to fight to the last. As a result of this and the attitude of the army, Kiamil Pasha decided to abandon the idea of asking the powers to intervene.

Ghazi Ahmet Mukhtar Pasha, the veteran victor of Kars in the Russo-Turkish war of 1877, and a former grand vizier, explained the Turkish defeats as follows:

"The Young Turks have ruined our army. Formerly part of the officers came from the ranks and the remainder from the military schools. The Young Turks did not like that system. They began by pensioning or finding other situations for the men who had risen from the ranks and replacing them by youngsters from the military academy. During three years about 1,500 joined in this way, but all of them were too young and inexperienced."

Rumors of Disorders.

Serious disorders are reported to have broken out in Constantinople, where Kurd soldiers are killing Christians in the Galata quarter, according to a special dispatch from Bucharest, Roumania, published by the Paris Midi under reserve. Some buildings of the Turkish capital are said to have been set on fire. The banks and foreign consulates are guarded by detachments of Turkish troops who are still obedient to discipline.

Appeal For Holy War.

Constantinople, Nov. 8.—Sheik-ul-Islam, head of the hierarchy in Turkey, issued yesterday the following appeal for a holy war in a manifesto addressed to the Ulema and Hodkas:

"With a view to exciting and encouraging the soldiers of the enemies who surround us their priests, cross in hand, are working in the ranks of the army. It is not fitting that our Ulema should neglect the accomplishment of a similar duty."

"In order that victory and glory promised by the almighty prophet may be granted without delay to the Ottoman army it is necessary that venerable Ulema organize a Jihad. Such a holy war has moreover become an obligation if the condition of the Ottoman soldiers, who are all heroes, is to be strengthened."

RAILWAY CASES.

Fort William, Nov. 10.—All important cases before the railway commission here were taken under advisement and decisions will be announced later, particularly on the application of the board of trade for the discontinuance of free storage.

INFANT BURNED TO DEATH.

Chehalis, Wash., Nov. 9.—In a fire which destroyed the home of Joseph Mrachek, a dairymen, near here, an infant was burned to death. Mr. and Mrs. Mrachek were badly burned but will recover. Three other children had narrow escapes.

TORONTO, BY LAWS.

Ratepayers Will Be Asked to Sanction
Expenditure of Over \$10,000,000.

Toronto, Nov. 9.—The by-laws which it is proposed to submit to Toronto ratepayers in January will call for an expenditure of about \$10,500,000. They include the following amounts: Sewerage water supply, \$6,000,000; Bloor street viaduct, \$2,250,000; garbage disposal, \$900,000; storm sewers, \$950,000.

SUFFRAGETTES EJECTED.

Removed From Hall When They Inter-
rupt Hon. John Burns.

London, Nov. 9.—A number of suffragettes last night made a demonstration in order to prevent Rt. Hon. John Burns, president of the local government board, making a speech at Battersea. The police were called in and ejected a dozen of the women and the meeting proceeded.

STABBING AFFRAY.

Grand Forks, Nov. 9.—Hugh Lisle is in the hospital with a serious gash in his side below the heart, and John Robinson is in the city jail as the result of a stabbing affray in a hotel at 11:30 last night. The men were alone in the room, but broken furniture indicated a severe struggle. When arrested Robinson had a sheath knife in his possession. He came to the city a few days ago from Republic, Wash., and has been employed at the smelter. Lisle is a locomotive engineer.

STEAMER NOT YET FLOATED

REMOVING CARGO FROM
THE ROYAL GEORGE

Some of Crew of Stranded
Liner Are Being Sent
Home

Quebec, Nov. 9.—The latest message from the stranded liner Royal George was received this morning as follows: "Lighters working all night to lighten ship of cargo; all baggage off. Leaking worse. No. 2 hold full and a good bit of water in boiler house and all of tanks. Pumps, coming to-morrow. Probably try and float steamer off to-day or Sunday. Some of crew being sent home. Have offer of drydock at Montreal."

The word received is not considered very reassuring and the fact that some of the crew are being sent home is taken to mean that if the boat is freed she will have to spend a long time in drydock, probably all winter. The Canadian Northern officials have not yet given up hope of saving the liner.

WOMEN JURORS.

Wichita, Kan., Nov. 9.—As a result of the addition of equal suffrage amendment in this state, women jurors will be drawn in the district court here for the January term.

DEMOCRAT STILL LEADS IN WASHINGTON

Ernest Lister's Plurality Like-
ly to Be Nearly One
Thousand

Seattle, Wash., Nov. 9.—With 70 precincts missing, Ernest Lister, Democrat, has a lead of 935 over Governor Marion E. Hay, Republican in the race for governor. As the returns slowly come in from the scattered precincts late in reporting, Lister's plurality fluctuates about the 900-mark. The remaining precincts, which are small, probably will not change the result materially, but it is not unlikely that the official count will be necessary to determine the result.

Governor Hay carried twenty-six counties, Lister, Democrat, 10; Hodge, Progressive, 3.

The whole Republican state ticket except governor was elected by substantial pluralities. Mrs. Josephine C. Preston, Republican candidate for superintendent of public instruction, who was at first reported to have been beaten, won by a large plurality. The legislature is nominally Republican in both houses, but many of the Republican members-elect have been identified with the Progressive movement. Hold-over Senator Jensen, of Pierce county, elected as a Democrat, has since joined the Socialist party.

The Socialists have a representative from Mason county also.

Roosevelt's plurality over Wilson is 22,000, and over Taft 38,000.

PRAIRIE CAPITAL MAYORALTY.

Winnipeg, Nov. 9.—Controller J. G. Harvey, chairman of the board of control and dean of the city council is definitely in the field for the mayoralty.

25,000 TURKISH TROOPS SURRENDER AT SALONICA

Dispatch Announcing Capitulation Received at
Athens. Powers Divided on Policy
Regarding Future of Balkans

London, Nov. 9.—Though the end of the Balkan war apparently is in sight, an even greater conflict threatens Europe to-day. The powers forming the triple alliance (Germany, Austria-Hungary and Italy) are divided into two distinct camps as to the policy to be followed when peace between Turkey and the Balkan allies has been brought about.

Absolutely ignoring the threat of Austria-Hungary that she will not tolerate the Serbian occupation of Albania, or of a port on the Adriatic Sea, King Peter's armies continue their advance through the country they were practically forbidden to enter.

Capitulation of Salonica.

Athens, Nov. 9.—The capitulation of the Turkish fortress of Salonica, as well as Fort Karaburum, was signed last night, according to an official dispatch received by King George of Greece. Twenty-five thousand Turkish troops surrendered.

Fighting at Salonica.

Sofia, Nov. 9.—The Bulgarian army besieging Adrianople to-day captured Karatepe and Papastepe, two of the outer lines of forts defending the city after desperate artillery duel. The Bulgarian troops suffered a large number of casualties.

Attacking Turkish Positions.

Vienna, Nov. 9.—The Bulgarians are now attacking with all their strength the remaining Turkish positions about Tchatalla and the fall of these vital Turkish defenses in front of Constantinople is only a matter of hours, according to to-day's dispatches from the Reichs Post's correspondent.

The Bulgarian third army has penetrated far into the forest region south of Derkes lake, preparatory to the advances on Constantinople while the first army is engaged against the main Turkish position east of Tchatalla. This position is not yet completely pierced, but the end of the Turkish resistance appears to be in sight.

The raw Turkish troops, large numbers of whom were rushed from Constantinople to meet the enemy's advance, are fighting strongly, but the exhausted veterans of the earlier battles are offering little serious resistance. According to prisoners, the Reichs Post correspondent says typhus has broken out in Adrianople and is causing great devastation among the defending forces. There are already several thousand cases of sickness and horrible tales are heard of the trouble arising from the lack of doctors in the beleaguered city.

In spite of numerous losses there are still from 40,000 to 50,000 men engaged in the defence of the city and although there are several Turkish leaders in the city there is not a single doctor who has received a European education.

Although the Turks are physically strong and are used to privation, hunger and illness are doing more damage than is the enemy.

Field Strewn With Dead.

Uspuk, Nov. 9.—The battle which resulted in the capture of the Turkish city of Prilip (or Perlepe) by the Serbian troops was one of the most severe that has been fought on this side of the Balkan peninsula. The Serbians lost 2,500 killed and wounded, while the Turks suffered 6,000 casualties. The battlefield is still covered with corpses. Owing to the broken nature of the country and the poor railroad communication, the members of the Red Cross Society are encountering the greatest difficulty in dealing with the wounded.

The fall of the Turkish stronghold of Monastir, which is now being attacked by Serbian and Greek columns, is expected hourly.

There is an old Italian proverb which says, "See Naples and then die," and a similar thought occurs to the traveller as his ship ploughs along the blue waters of the Bosphorus towards the gorgeous city of Constantinople, which lies in stately grandeur on the narrow peninsula studded with its seven low hills.

Nor can earth show a fairer sight than this marvellous city, with its glittering cupolas and minarets, its flashing spires and steeples, its warm Oriental coloring, its wonderful blue of sea and sky contrasting magnificently with the white and yellow of palace and mosque. At the northern end of the Golden Horn, where the inlet narrows stretch on both banks the suburb of Sweet Waters, which, with its beautiful meadows and alleys, helps to form a fitting setting to the glittering loveliness of the city itself.

But as soon as the vessel is beached at the wharf, as soon as the traveller touches foot on the ground of the most historic city in Europe, he realizes that his first impressions have been utterly wrong; he begins to feel that the outward beauty and magnificence of the place are but the tawdry trappings hiding the filth and accumulated scum of eastern Europe.

Into the town and the scene has changed. No longer is the visitor impressed with magnificence of Oriental coloring. The narrow, unsanitary streets, the filthy, scavenging lazar dogs which lie on the pavements in the sun and snap viciously at unwary strangers, the stench issuing from the dark, noisome little dwelling houses; these become omnipresent to the mind. Constantinople is a city of rude contrasts, and yet within possesses a strange fascination; every one of its twenty-nine gates, every stone of walls, reeks with history. The crannellated, turreted palace is a veritable storehouse of relics and from its chief gate, the Sublime Porte (from which the Turkish government derives its title) the view is something that makes a more vivid impression on the mind than perhaps any other scene in the continent of Europe.

ACCIDENTAL DEATH.

Kingston, Ont., Nov. 9.—John Campbell was accidentally shot at Canoto, four miles from Folger. Lizzie Seales was playing with a shotgun when it went off, the charge entering Campbell's head and killing him instantly. Campbell had told the girl the gun was harmless as he had unloaded it.

BOY FOUND DROWNED.

Calgary, Alta., Nov. 9.—The body of little George Campbell, four years old, for whom a search had been made for twenty-four hours, was found yesterday afternoon in a big rain barrel in the rear of the family residence. The lad had evidently climbed up the side of the barrel and, losing his balance, fell into the water and was drowned. Search parties consisting of fifty Boy Scouts had been searching for the lad all day.

CABINET SHUFFLE AT THE CAPITAL

WHY MR. CORDERRE WAS GIVEN PORTFOLIO

Premier Borden Still Anxious
to Retain Support of the
Nationalists

Ottawa, Nov. 8.—Now that the changes of mind exhibited by Prime Minister Borden with regard to his cabinet reconstruction have been ended with the appointment of Hon. Louis Corderre as secretary of state, a vast amount of speculation is going on amongst Conservatives as well as Liberals as to just what this extraordinary move means, for extraordinary it is in every way. While Hon. Mr. Corderre is a reputable lawyer of good standing in Montreal, he has never distinguished himself in a way to indicate that he was built of cabinet timber. In fact up to September 21, 1911, he had been twice defeated in Hochelaga, and also as a candidate for city controller.

In 1911 the Hochelaga election was run strictly according to schedule. Mr. Corderre was kept almost entirely out of Westmount, where the English-speaking workers applied the typical Ontario campaign amongst the ultra-Protestant Tories, while the really hard work was done quietly amongst the French-speaking population in St. Henri, so that in the one riding was concentrated the whole double shuffle system by which the Tories won in Ontario and gained in Quebec. The result was that Mr. Corderre won by about 1,370.

But during the campaign Mr. Corderre was not prominent enough for his utterances to be followed with much interest, so that though he supported the Nationalist platform it attracted no attention. No one dreamed of him as a cabinet possibility until the prime minister's characteristic wobbling brought him to the front a few days ago as a strong aspirant. If the Conservative press is to be believed it would seem that first Mr. Borden tried to get T. Chase Casgrain, of Montreal, an old political war horse, to accept the vacant portfolio, but the latter courteously declined. Then it was offered to L. T. Marchal, a well-known lawyer and Conservative leader of Montreal. The latter did not decline, and almost to the last it seemed certain that he would be appointed. The plan was to provide in some suitable manner for Mr. Corderre and give Hochelaga to Mr. Marchal.

But again the spirit changed. Sir Rodolphe Forget appeared on the scene, and the spectre of Nationalism

crept in. Mr. Marchal was a straight Conservative, and it was not thought diplomatic to break too definitely with the Nationalists. So at the last moment the prime minister again changed his mind, and decided to continue the Nationalist representation in his coalition cabinet, and Louis Corderre became Hon. Mr. Corderre, secretary of state.

Thus owing to the political exigencies caused by Mr. Monk's resignation, Hon. Louis Corderre is in the peculiar position of a ministerial representative of the French-Canadian Catholics of Quebec, with a seat won for him by the big Protestant English-speaking vote of Westmount. He is in the position of a man who won his seat through open support of the Nationalist principles and an acceptor of Nationalist help, taking the place in the cabinet vacated by the leader of the Nationalists because of hopeless divergences on the naval issue. It is pretty evident that with this unexpected rise to eminence Hon. Mr. Corderre must be able to forget a few things. The change, however, so far as personality is concerned, is hardly one likely to add to the prestige of the Borden government, though it may add to the quiet of council meetings.

Sir Wilfrid Laurier at Sorel said that Hon. Mr. Monk's resignation was the beginning of the end. Hon. Mr. Corderre's succession is another appreciable step in the same direction. It is palpable that he was appointed, not because of any peculiar fitness of his own, but because of the Tory vote of Westmount, which gave him his big majority and made Hochelaga about the only Quebec riding the Tories dared open after the lesson of Richelieu. It was an open confession of the Conservative party's want of faith in its own following's strength in the province of Quebec.

Nor will either Ontario or Quebec be much placated by the practical vote of want of confidence in Hon. Mr. Corderre by the handing over to him of a lesser job as secretary of state instead of Mr. Monk's old portfolio of public works, and passing that on to Hon. Mr. Rogers, while another Manitoba man, Hon. Mr. Roche, succeeds the fighting man from Winnipeg as minister of the interior. How the people of the other provinces will be pleased with the handing over of two of the most important portfolios to the smallest province in the Dominion remains to be seen.

LAVERGNE DECLINED OFFER OF PORTFOLIO

Young Nationalist Declares
Hon. F. D. Monk Wanted
Him in Cabinet.

Quebec, Nov. 9.—Armand Lavergne made some startling statements at a meeting that he held at Indian Lorette, where he denounced Hon. L. P. Pelletier for not having resigned his portfolio. He recalled that, at the last general elections, there was not a single Conservative candidate who was elected without placing himself under the Nationalist cloak, and Hon. Mr. Pelletier was the most ardent of the followers of Mr. Monk on the navy question, having solemnly promised before his election that he would never consent to the introduction of any naval policy without a referendum.

The young Nationalist leader gave some interesting particulars on the way the Quebec ministers were chosen by Mr. Borden in the fall of 1911. He said that Mr. Monk had agreed to enter the cabinet only on the condition that contribution to the British Admiralty would not be voted without a referendum.

He asserted that he was offered a portfolio by Mr. Monk, who wanted to have him in the cabinet with Mr. Mathias Teller, leader of the opposition in the Quebec Legislature, but that he refused because he wanted to remain independent, and that he advocated the entrance of Mr. Pelletier into the cabinet. He added that it was due only to his representation to Mr. Borden that the French-Canadians in Quebec were given three portfolios in the cabinet.

Mr. Lavergne claims that Canada is not a nation, but only a colony, and that being so, it is the duty of the "metropole" to protect its colony, and it is not the duty of the colony to protect the "metropole." When all accounts are settled Canada owes to England nothing more than a Christian pardon. He does not believe in the German peril, and he will not let 35 millions be given to England, who does not need it, when Canada has yet so much to do for its development.

The Nationalist leader was enthusiastically applauded when he said that, if he had to choose between the navy proposed by Laurier and the disgraceful contribution proposed by Mr. Borden, he would choose the former.

Resolutions approving Mr. Monk's attitude and enjoining Mr. Pelletier to follow his example and resign, were unanimously carried by the meeting.

CANADIAN FINANCES.

Revenue for October Shows Increase of More Than \$2,000,000 Over October 1911.

Ottawa, Nov. 9.—The Dominion financial statement for the month of October shows that Canada's prosperity continues unabated. The consolidated revenue for the month aggregates \$14,758,946, an increase of over two millions over October last year. For the first seven months of the fiscal year the aggregate revenue was \$96,127,597 against \$78,291,178, a similar increase of twenty millions. The revenue for the year will eclipse all records, and promises to reach \$160,000,000. The expenditure on consolidated account in the seven months was \$51,271,393, an increase of eleven millions, and on capital account, \$12,000,000, a decrease of \$2,000,000. During October the net debt was decreased by \$4,022,000.

HOW THE VICTORY IN MACDONALD WAS WON

Prostituting the Court to Partisan Ends—Tory Divisions on Naval Question

Ottawa, Nov. 5.—Day after day the work goes on at Winnipeg unearthing the "human" methods by which the Roblin-Rogers-Borden combination won out in the Macdonald bye-election. The serious feature of the whole thing was the manner in which the bench appeared to have lent itself to carrying out the partisan plan of blurring Liberal workers and freeing government crooks. But at last the Roblin elements have gone too far and the whole west is up in arms at the amazing revelations. It has been shown that warrants were issued in blank, like the infamous lettres des cachets of Bastille days, and Liberal workers, such as Captain Sifton, were arrested on perjured information whenever such a course seemed useful or possible. That they were held without bail and effort made to bully them into confessing to election crimes under promise of freedom. This was done in the case of young Prince. He was clapped into jail, held without bail, and then they tried to bully him into pleading guilty of bribery, promising freedom if he would do so and threatening punishment if he refused. He had the pluck to refuse and now the whole infamous business is being exposed.

At the same time government crooks who were arrested were allowed to plead guilty before sessions of courts illegally called so as to dodge counsel and then let off with small fines for offences which, according to law, demanded imprisonment without the option of a fine. And then, to cap the climax, came the amazing attack by Magistrate McMicken upon the lawyers who dared to defend Liberal victims, and the subsequent contemptuous dismissal of cases he entered against them. No such exhibition of the prostitution of courts for partisan ends has ever been known in Canada and it is small wonder that the Roblin work in aid of Mr. Borden's candidate is denounced everywhere by the Western press as worse than Russian methods.

In the Macdonald bye-election the Conservatives used special police, detectives, and courts to bulldoze the electors into a proper expression of good Tory belief at the polls. In Richelieu less violent methods were used and the government workers fell back upon the more convenient method of bribery and threat. Sir Rodolphe Forget, M. P. for two counties and notable high financier, was sent to the riding. He knew that elections were not made with prayers and protest and to promise the people of Richelieu a much needed railroad if they would elect the Conservative candidate, while if they dared to return a Liberal they were threatened with the removal of the big government shipyards from Sorel to Levis or Collingwood. The Richelieu voters refused to be either cajoled or threatened and stood by their Liberal principles. Sorel should furnish some good material for the government axe.

There are four naval attitudes before the country just now. There is the Bourassa-Nantel-Pelletier cry of no navy, no contribution, no nothing; there is the Monk attitude of neither navy nor money until after a reference to the people; there is the Borden idea of an "emergency" contribution with some future policy to be worked out as opportunity allows; and there is the Laurier policy of a Canadian navy to be built in Canada, as far as possible of Canadian materials, manned by trained Canadians, and maintained under the authority of the Canadian government, but ready at any emergency to be placed at the disposal of the Imperial government. The choice should not be difficult. It is not money that Great Britain needs. It is good material in ships and men, and that is what the Laurier policy calls for.

There is a general impression abroad that Hon. Mr. Rogers, who inherits Mr. Monk's trusty axe, will wield it with patience and dexterity on the bigger game, while his colleague, Hon. Mr. Pelletier, will see that the closest season for postmasters is indefinitely extended. Any government servant appointed between 1896 and October, 1911, would do well to walk warily and be ready for "removal" at any time.

Now that Hon. Mr. Monk has been put in cold storage, will the Hon. Bruno Nantel become one of the leaders of the anti-jingo wing of the cabinet? At present the Hon. Mr. Pelletier is too busy decapitating post office employees to bother about such little things as navies.

BAN ON CIGARETTE SMOKING.

Pasadena, Cal., Nov. 9.—J. M. Rhodes, superintendent of schools, said yesterday that he would stop cigarette smoking among his school boys or else they would never participate in inter-school athletics. In an order issued to-day he prohibited any boy who smokes cigarettes from playing on the football or baseball teams, or engaging in any of the school sports.

School authorities declared cigarette smoking among boys from 10 to 18 years was on the increase and that still more drastic steps would be taken to stop it.

CONDEMN ATTITUDE ON SOCIAL EVIL

CONVENTION APPEALS TO ATTORNEY-GENERAL

Many Resolutions Passed at Closing Session of Sunday School Workers Yesterday

Condemning the action of the authorities, and passing a resolution calling on the attorney-general as the responsible public officer to issue an explanation of his attitude in regard to the refusal of the warden of the penitentiary to admit women sent there from the courts to serve terms of imprisonment, the convention of Sunday school workers of British Columbia yesterday went on record as being fully aware of the facts. The resolution passed by the convention is as follows:

"That whereas information has been made to this convention that the police authorities of Vancouver have endeavored to administer the law concerning social vice, and whereas it has come to our knowledge that at a properly constituted court in Vancouver certain persons were sentenced to terms of imprisonment and further that these persons after being sentenced and taken to goal, were turned away and allowed to escape their legal penalty of imprisonment.

"Therefore, be it resolved that this convention condemns the actions of those authorities respectively in permitting such a miscarriage of justice and makes an appeal to the attorney-general to make his own position in relation to this whole question clear to the public."

There was a long and an earnest discussion on the resolution when it was moved and seconded, speakers in the convention speaking on many aspects of the social evil. Rev. C. W. Whitaker, A. Callender, Rev. Mr. Crutch and Mrs. Mackay, being among those who contributed to the discussion. When the resolution was voted on there was only one vote in dissent.

Continuing its opposition to the liquor traffic the convention went on record as previously associating with the liquor traffic in the resolution gambling and bar drinking. The convention resolved to endorse a pledge-signing campaign, and to obtain the reaffirmation of those who have already signed it in the Sunday schools.

From a resolution dealing with liquor and its use by Indians, the delegates learned that in the United States all officials working in the Indian department who come in direct contact with the Indians were of temperate habits. In fact are abstainers. The resolution was put and carried to the effect that the Federal government be petitioned to appoint in the Indian service total abstainers. The convention also resolved to have Sunday classes established for the Hindus of the province in such cases where the schools are needed. A resolution thanking all who had acted as hosts, and assisted in the convention arrangements, was passed.

The following officers were elected: Hon. presidents, Noah Shakespeare, A. L. Fortune, Enderby (re-elected); president, H. J. Knott, Victoria; vice-president, J. C. Robson, principal of the public school at Rosedale; treasurer, C. E. Mahon, Vancouver; re-elected; auditor, J. S. Rankin, Vancouver; re-elected; deputy superintendents, Adult, N. You'll Sleep More Soundly If You Keep Healthy With Dr. Morse's Indian Root Pills

The man or woman with a good appetite, sound digestion, and bowels and kidneys working right, is never troubled much with sleeplessness. It is when the bowels become constipated and the liver and kidneys sluggish that the trouble begins.

Lazy liver and constipated bowels quickly bring on biliousness, indigestion and sick headaches, making a sound, refreshing night's sleep impossible. Or the inactive kidneys allow the blood to become loaded with uric acid, which causes rheumatism, with all its sleep-destroying tortures.

Dr. Morse's Indian Root Pills, taken regularly, induce sweet and dreamless sleep by keeping all these organs active and regular. The headaches disappear, the digestion becomes good again, the blood is purified and perfect health returns.

Dr. Morse's Indian Root Pills have been a favorite household remedy in Canada for over half a century, and they are in daily use throughout the world. Being purely vegetable they are safe for young and old. Made by W. H. Constock Co., Ltd., Brockville, Ont., and sold by all druggists at 25c a box.

"LUCKY JIM."

To the Editor:—Your editorial in tonight's Times is responsible for the following parody. I offer the words free of all cost to Parker Williams, providing he will sing them at the first smoking concert held by the members when they meet at the approaching season. He cannot do better than use the music of the original song, as it has a very mournful sound, and I would suggest that he fill in the blank spaces of the last chorus in the manner which his spirit suggests at the time of singing:

"LUCKY JIM."

Jim and I were "Comrades" together,
Red-hot Socialists were we;
Our party swore that Jim was ours forever;
He was our idol, I could plainly see.

Chorus—Oh, lucky Jim! how I envied him.
Oh, lucky Jim! how I envied him.

In parliament Jim's speeches were not playful;
He spoke of setting all poor wage slaves free.
He scared "King Dick" and nearly all the faithful;
Yes, Jim completely eclipsed me.

Chorus—Oh, lucky Jim! how I envied him.
Oh, lucky Jim! how I envied him.

Now from our ranks Jim has departed,
A "first-class" touring capitalist is he;
Alas! dear friends, I'm almost broken-hearted,
For "King Dick's" right hand man he'll be.

Chorus—Oh, Jim! how I — hnn.
Oh, Jim! how I — hnn.

THE RESERVE.

To the Editor: On completion of the sale of the Songhees Reserve we were told it would be divided and sold. On the strength of this and many later assurances that the reserve question would be settled, many people have invested their money and built homes, in the belief that these promises would be fulfilled. Many have lost their money, being unable to hold on to the property they had every reason to believe would have rapidly increased in value had these promises been lived up to.

The reserve question seems no nearer a settlement than it was a year ago, but why should the people of Victoria West and Esquimalt be forced to travel a mile out of their way via Point Ellice bridge or walk through the mud paths and over the old railroad bridge to reach the city? Why cannot Lime street be built through and the bridge built across the arm, thus giving us direct entrance to the city? Let the railways fight over the division of the reserve, but we have the right to demand, and it stands for the best interests of the city that the street be put through and the bridge be built at once.

BRITAIN AND GERMANY.

Apart from the possibilities which hinge upon the war in the Balkans and the turmoil incident to successive revolutions in Mexico and South America, the probability or improbability of war between Great Britain and Germany must for some time continue to be the chief subject of speculation. While it is the jingo who makes war, it is the prerogative of the common people to avert it. Jingoism can plunge a nation into armed conflict only when there has been created the requisite degree of public excitement. No civilized government, when not compelled in self-defence, will initiate a war unless there is behind its action the endorsement of strong public sentiment. It is the common people, the average citizen, having the opportunity of informing themselves on both sides of the question, who usually prove the best arbiters. It was probably this view which induced Mr. Norman Angell, author of the Great Illusion, to pursue the subject treated in that book at the recent meeting of the Economic Science Section of the British Association, where he discussed economic and moral factors in international politics, with special reference to the possibility of war between Germany and Great Britain. Mr. Norman Angell takes the stand that it is impossible to separate a problem of self-interest from a problem of morality, and his address is a clear enunciation of the reasons why this impossibility exists. Reducing his argument to its application in the case of Germany and Britain, the practical question, he says, is this: Are the great moral divisions of the great world such that we are likely to find them expressed in one national ideal as against another national ideal? His answer is:

"Whenever this question is applied to actual politics no cases are forthcoming. In the latest conflict between Britain and Germany what is the moral ideal promoting assumed German aggression? If ends which cannot be expressed in terms of tangible advantage—extending trade and territory and the rest—are not at the bottom of that prospective aggression, what are the moral motives behind it? I have, indeed, seen it suggested that Germany will enter upon a crusade to subdue Britain in the interests of autocracy in Europe; and such arguments used to be much commoner when Russia was the enemy instead of Germany. Even though Germany did 'vanquish' Britain, some 55 or 66 millions of English-speaking people—some 150 millions if you include the United States—would remain with their own laws, literature, political traditions just as before, and they would remain as much an intellectual and moral ferment in the world as ever. Even though Germany were so completely successful as to be able to effect the incorporation of Britain into her Empire, she would then necessarily incorporate the very elements which it was the object of the war to prevent from touching her empire—a war undertaken for the purpose of destroying anti-autocratic elements would have resulted in introducing into the new German Empire an immensely strong element of anti-autocratic element. It is these moral and spiritual elements which all experience shows to be impossible of destruction, even where the disproportion of power in favor of the conqueror is overwhelming, as in the case of Germany in her Polish and Alsatian provinces."

It is impossible to believe that the best thinkers in Germany and Great Britain are unaware of these deep, underlying principles governing human conduct, human conduct in nations as in individuals. It is reassuring to find men of intellectual influence urging them upon the attention of the rulers of our destiny. Mr. Angell continues, however, to follow his theory into its application in the overseas dominions of the British Empire. Here the problems which would face the conquering nation, supposing the German conquest were possible, would prove as embarrassing as in the former case. He says:

"Canada or Australia after German conquest—if we could imagine such a thing possible—would necessarily remain pretty much the same Canada or Australia as before. Since you cannot turn the business man out of his business and the farmer out of his occupation, since they are secure in the means of

livelihood for their families, they are in a position to resist all effort at Germanization. They will not send their children to the German school, nor write their letters in German, nor say their prayers in German, and given all the factors of the case it would be a physical impossibility for Germany to make them do so, conquest or no conquest. It was not always so, but it is so to-day."

The inclusive critic explodes the idea that "it is the desire to be of your place and locality that makes war." He says it is the desire of other men that you should be, not of your own place but of theirs, of their habits and traditions, that makes war. "Not the desire of nationality, but the desire to destroy nationality, is what makes the wars of nationality."

In the view of this essentially sound reasoning, we think Mr. Angell has conferred another distinct service upon society by marshalling the facts and emphasizing the basic principles upon which they are founded. He has done much to steady the rank and file of citizenship in their opinions that war between Great Britain and Germany is a remote possibility.

Wasn't it Lord Charles Bessford who told us, less than a month ago, that there couldn't be any war in the Balkans this year because it was going to snow too soon? Dangerous to prophesy unless you know.

The white streak in the centre of a block of artificial ice is the last part of it to be frozen and, therefore, contains the waste air and other gases that were dissolved in the water before freezing. Hence the "snowy" appearance.

It is alleged that J. J. McNamara, the champion dynamite of America—that is, in the way of destroying property—and blowing up people—has been plotting to "get" William J. Burns, the detective, and Walter Drew, of the National Erectors' Association. The allegation will cause little surprise. What causes satisfaction, though, is the knowledge that Burns "got" McNamara and that the law "has" him.

A hundred members of the British House of Commons have expressed their approval of Lord Roberts's recent speech urging Great Britain to get ready for war with Germany. Mr. Runciman and Sir Edward Grey, members of the cabinet, condemned the speech in question, and Mr. Winston Churchill, also a member of the cabinet, praised it. The Montreal Gazette, oldest and most respected of Conservative papers in Canada, points out that there are 670 members of the House of Commons. The ground of hope in the situation is that more than five hundred did not join in the declaration. The big majority may be taking time to think. The Gazette is not much enthused over Borden's emergency.

The Toronto Weekly Sun says if Mr. Geo. E. Foster sincerely fears that increased trade with the United States would drag Canada from her Imperial moorings, as he has been heard to say, he ought to be at home contemplating with anxiety a trade with the United States which is growing despite all obstacles, by leaps and bounds, and will pass this year the five hundred million mark. Where is the danger line? Is it at five hundred millions or a thousand millions? There is no danger line. Canada's exports of hay alone against a duty of four dollars a ton, nearly equal her total exports to the whole West Indies and Australia, says the Sun, and the farmers would be very sorry were these exports to be stopped.

NEW REGIMENT NOW OFFICIALLY FORMED

Major Beale Receives Copy of General Order Authorizing 88th Victoria Fusiliers

The 88th Regiment Victoria Fusiliers is now in official existence, the authority having at last reached Major Beale, the adjutant. The gazette notice announcing the formation of the new regiment is dated November 7, 1912, and is as follows:

"The following extracts from an advance copy of General Order dated Ottawa, 3rd September, 1912, are published for general information: "Military District No. 11, 88th Regiment Victoria Fusiliers, the organization of an eight company Regiment of Infantry, to be designated the 88th Regiment Victoria Fusiliers, with headquarters at Victoria, B. C., is authorized."

Major Beale said this morning that the full strength of the regiment was 410 in officers and men. The regiment will be given accommodation in the new drill hall when that building is completed.

EARTHQUAKES.

Recorded on the New Seismograph Invented by F. Napier Denison.—A Wonderful Record.

One of the finest records of an earthquake ever produced in this city was taken by F. Napier Denison's new seismograph, Thursday. The shock recorded was the Alaskan earthquake, a full description of which has already appeared, and the quake, as shown on the sensitized paper of the instrument, lasted from 11.48 p. m. until just before 2 a. m.

The swing of the pendulum at the strongest part of the quake was well over one inch and the almost perfect manner in which it is portrayed on Mr. Denison's record speaks excellent both for the new instrument which he has designed and for the ingenuity of the inventor. Record of another small shock, probably somewhere to the south, was obtained the following morning, but it is not quite certain at what place the latter quake, which was of a very mild description, was experienced. The first mentioned record, by its strength, showed that the Alaskan earthquake was a world-shaking one.

PLAIN TAILORED and FANCY COSTUMES AT \$25.00

The Season's Best Features in Fabrics and Designs Are Given Expression in This Showing

When a Woman Buys a Costume

It is only natural that she should demand the latest style and the best tailored garment that can be purchased at the price she is willing to pay, and with these facts in mind we have been particularly careful in making our purchases this season.

The showing of Costumes marked at \$25, now to be seen in both the View street windows and in the Mantle Department on the first floor, is sufficient to convince any woman that better fitting, more stylish, or desirable garments are not to be had at the price.

There are dozens of different styles, materials, colors and all sizes to be had, and the woman who knows most about the quality of a garment will be the most ready purchaser.

Serges, fancy worsteds and tweed mixtures are the chief materials, and the most prominent colors are navy, black, browns, greys, greens and fawns. All are lined with an excellent quality of satin and are finished in a manner that would do justice to most suits sold at \$35.00.

Two, three and four buttoned coats are to be had, some in the slightly cut-away style and others with straight fronts.

WE INVITE YOUR INSPECTION.

Important News From Our Corset Department

THE "BON TON" NON-RUSTABLE CORSETS

HERE is a corset that has made the American figure famous—internationally famous—and popular for fifty years, and is still growing in popularity. It goes without saying that any article must possess exceptional merit to hold its leadership for half a century, and be sold to, and worn by, the best dressed women in every civilized country in the world. All the newest and best models of "Bon Ton" Corsets are now to be seen in our corset department, and all sizes are to be had. Prices from \$5.00 up to \$8.50

THE "ROYAL WORCESTER" CORSET IS ANOTHER EXCELLENT LINE

Women who are carefully, yet not extravagantly gowned, have long since discovered that the secret lies in wearing the corset that suits their figure best. Many choose the "Royal Worcester" for they know it to be a fashionable, durable, comfortable and medium priced corset of high quality and gives the year-round satisfaction. Prices \$1.75 up to \$4.50

THE "THOMPSON GLOVE-FITTING" CORSET

Is another satisfactory line, and as the name implies, is most comfortable. All sizes are to be had at prices ranging from \$1.50 up to \$5.50 C.C. A LA GRACE is another popular line and ranges in price from \$1.50 up to \$5.50

Three Lines of Interest to Women

FANCY APRONS, SATIN PRINCESS SLIPS, FLANNELETTE NIGHT GOWNS.

A choice variety of Women's Fancy Aprons have just come to hand, and they are excellent values. They are trimmed with fine Valenciennes lace and ribbons and come in such a wide assortment of styles and prices that they will meet almost all demands.

Your choice from 50c up to \$2.50 Satin Princess Slips are to be had in colors black, grey, blue, white and cream. They are beautifully finished and the quality of the goods should please even the most exacting woman. All sizes are to be had. Prices range from \$6.75 up to \$12.50

Women who sleep in a flannelette night gown know what real comfort is. The soft and velvety touch of the material is a pleasure that cannot be overestimated, and the extra warmth of this class of garment is welcome now that cold nights are with us.

Here is an extra good line that comes in both white and pink flannelette, some are trimmed with embroidery and others are daintily finished with lace. You can choose from either high or square necks. A very special line at \$1.25

To-night at 7.30 in the Hardware Department

HERE ARE SOME SPECIAL LINES THAT WILL KEEP THE CLERKS HURRYING

FOUR special lines, and all of them such bargains that they should more than please the most expectant shopper in the city. Some are odd lines from our regular stock and others are a special purchase from a local dealer who is discontinuing these lines, and were purchased at such a sweeping reduction in price that we are able to offer such bargain inducements as these.

FANCY BERRY SPOONS, warranted to wear white right through, neatly ornamented and a useful size and shape. Regular 35c value for 10¢

NET SHOPPING BAGS—We purchased a whole barrel full of this line and have marked them at a price that should clean them out to-night. They are a good size, strong and are values that sell regularly at 20c and 25c. Your choice at, each 10¢

PUDDING BOWLS at a reduced price should be an acceptable line just now. They are a dependable quality and a useful size. Regular 20c value selling at 10¢

21-PIECE TEA SETS are to be had in a variety of very attractive styles and colorings. These are values that we have been selling regularly at \$3.99, but as we have only 15 sets left, we have marked them for a speedy sale at, each \$1.99

SEE THE WINDOW DISPLAY ON BROAD STREET FOR FURTHER AND BETTER INFORMATION.

Many New and Attractive Lines

ARE NOW TO BE SEEN IN THE FANCY WORK DEPARTMENT.

IT is useless to attempt to describe, in this limited space, all the new and attractive lines that have arrived in this department during the past few days, and a number of invoices received, indicate that our already big stock will be larger than ever in a few days' time. This should be welcome news for women who are commencing to study the problem of finding appropriate presents to send to their friends for Christmas. If you want a useful or fancy article that you can embroider, and thus give to your gift a direct personal touch, there are dozens of interesting lines here to choose from and the cost is very slight.

Goods ready finished are to be seen in a host of styles and qualities and all kinds of materials are to be had at prices that will add to the reputation of the Spencer Store as a house for good values.

Visit the department on the first floor and we shall be pleased to show to you these new and attractive lines.

WHEN A WOMAN WANTS TO MAKE A CHANGE IN HER DRESS

AND DOESN'T WANT TO SPEND MUCH MONEY

She cannot do better than invest in a new Lace Collar, Jabot, or some good Ribbons. Sometimes a combination of these lines are very effective and desirable and their cost is very small. Here you will find a great assortment of the prettiest collars, jabots and ribbons that have been put on the market this season, and, as usual, Spencer prices represent a considerable saving.

LACE COLLARS in the newest shapes and beautiful lace effects. Here is a variety of styles and patterns that should meet every possible demand. Prices from 25c up to \$5.00

TWO SPECIAL LINES OF SHOT RIBBONS six inches wide are to be had in various colors. There should be a strong demand for them at these prices. Per yard, 15c and 25c

RIBBONS OF ALL DESCRIPTIONS and colors are to be had in this department. They range from the narrowest of baby ribbons up to the widest millinery ribbons.

From such an assortment as we can spread before you, it should be an easy matter to sort out just the style, width and coloring that will suit your purpose.

A SPECIAL LINE of muslin and lace jabots are now to be seen, and show far better taste in design, and a higher grade of quality than usual for goods sold at this price. Your choice at 35c

DUTCH AND HANDKERCHIEF COLLARS in a great assortment of styles and values that sell regularly at 50c, 75c and \$1.00, are now marked down to each 25c

Special for Monday. 50c to 65c Silk Muslins and Geisha Silks for 25c

A special purchase of a job lot, from a manufacturer, consisting of about 4,000 yards of this beautiful material goes on sale Monday. Various patterns and striped effects are to be had in a great assortment of choice colors. The material is 27 inches wide and is to be seen in the

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, Wednesday, November 9, 1887.

The average school attendance for October was 966, equal to 46 pupils for each of the 21 teachers in the several schools.

This is Lord Mayor's Day.

H. R. H. the Prince of Wales is 46 years old to-day.

Mr. and Mrs. M. W. T. Drake to-night give a ball at their residence, to which the elite of the city and many of the officers of the navy have been invited.

Mr. Robert Porter, corner of Johnson and Douglas streets, has secured the contract for supplying "C" battery with meat.

What has become of our boasted loyalty? The officials in the post office appear to be the only ones who are aware of to-day being the 46th anniversary of the birthday of H. R. H. Prince of Wales. It and the city hall are the only public buildings flying the flag to-day.

Mr. George Sherwood was married at the Angel hotel this forenoon by Rev. D. Fraser to Miss Sarah Olivia Sullivan, who arrived last night from Barrie, Ont.

Joint Conference.—There will be a joint meeting of the legislative committees of the board of trade and the real estate exchange in the offices of the board on Bastion street on Tuesday next, to discuss matters of commercial importance to the people of Vancouver Island.

Oak Bay Building.—Having passed the million mark, the applications for building are still coming in very regularly at the Oak Bay Council office. Yesterday two permits were issued by the engineer to T. B. Winskip for a six-roomed dwelling house on Meadow Place at cost of \$2,500, and to Calvin Moore for a small building on Front street to cost \$800.

TEMPERANCE.

Will Be Exhorted From Many City Pulpits To-morrow—Special Services and Meetings.

Special temperance sermons will be preached at many of the local churches to-morrow, the International Sunday School Association having asked that the day be observed as Temperance Sunday. Those people who have signed the pledge will be given a chance to reaffirm the same. Those who have not yet done so will be earnestly invited to make the effort.

The evening service at the Centennial Methodist will be along temperance lines, and the pastor, Rev. Thos. Green, will preach on abstinence. Pledge sheets will also be displayed. Rev. Thomas Gladstone will preach on temperance at the Reformed Episcopal church, and the First Baptist will hold a temperance and moral reform meeting in place of their usual weekly prayer meeting. Special references to temperance will also be made in St. Andrew's Sunday school and all other Presbyterian Sunday schools in the city.

Three different anniversaries are to be observed to-morrow. In addition to the temperance movement the Centennial church will observe to-morrow as Missionary Sunday in compliance with the request of the Laymen's Missionary Movement, and Rev. Dr. Hartwell, superintendent of Oriental missions, will be the preacher at the morning service. At Christ Church cathedral the day will be observed as "Children's Sunday."

MANY EXCELLENT POSITIONS OPEN

New Federal Law Compels Vessels to Have More Wireless Operators.

Seattle, Wash., Nov. 8.—Many good positions are open to young men and young women in the field of "Wireless" and of commercial telegraph service. The passage of the new United States law, effective October 1, compelling all sea-going vessels to be equipped with wireless instruments and two competent operators, has created a great demand for operators in the marine wireless service. United States laws now require railways to use more operators than ever before. The Morse Telegraph Company, opposite the Orpheum Theatre, Seattle, operates in close connection with wireless and commercial officials, and can place graduates in good positions. It will pay you to write for full particulars.—Adv.

MEETING CALLED OFF.

Not Sufficient Business to Warrant a General Meeting of Board of Trade This Month.

The council of the board of trade yesterday decided that the usual monthly general meeting would not take place on Tuesday next as previously announced, as it was considered that there was not sufficient business to warrant the meeting being called. Of course, if it is found necessary a special general meeting can be called without twenty-four hours.

SUNDAY SCHOOL CONVENTION.

Next Annual Gathering Will Be Held in Vancouver.

The next Sunday school convention will be held in Vancouver. The secretary's report read last night contained the following statistics:

Number of Sunday schools in the province, 480; number of officers and teachers, 1,117; scholars, 23,587; cradle roll, 2,618; home department, 691, making a total of 28,694 persons connected with the association, 153 Bible classes had been organized during the year, and 960 persons through the medium of either Sunday school or Bible classes had joined the church.

W. J. White and C. E. Mahon presented the treasurer's report, which showed a small balance on hand. The closing of the convention took place last night, when there was a procession of delegates from Broad street through the streets to the church. Rev. C. R. Fisher gave a stereopticon lecture on adult Bible class work. A vote of thanks was tendered the secretary and the convention closed with prayer.

HEAVY WEATHER OFF COAST DELAYS TEES

C. P. R. Steamer Late Arriving
From Holberg—Not Sailing
Till Monday

Such heavy weather has been encountered off the west coast by the C. P. R. steamer Tees, Capt. Gillam, on her run from Holberg, that she will be late arriving in port and consequently her next sailing has had to be altered. According to her schedule the Tees should sail from here to-morrow night, but as she will not dock until some time late to-morrow afternoon the officials of the B. C. Coast Service have decided not to send her out to Clayoquot until Monday night at 11 o'clock.

On her last trip from Holberg the officers of the Tees reported one of the worst voyages they had ever experienced. It is more than likely that upon the return of the Tees to-morrow the officers will be able to relate another story of nasty weather.

SEVERAL CHARTERS ARE ANNOUNCED AT 'FRISCO

San Francisco, Nov. 8.—The British steamer Gifford, which left Puget Sound last August for Australia and is now at Newcastle, has been chartered for another voyage at \$8, 60, by Scott, Henderson & Co. She will load coal at Newcastle for Valparaiso and come ashore here in ballast, taking part lumber cargo at this port and finishing up on Puget Sound.

The barque Albert has been chartered by J. J. Moore & Co. for lumber from Columbia river to Napier, New Zealand, at 70s. The Albert has been in the Hawaiian trade for several months.

The schooner Charles R. Wilson has been sold by Thomas Crowley, the launchman to the Pacific Coast Godfish Co., and will be sent north in the spring. The Wilson is a vessel of 223 tons, built in 1891.

The British steamer Strathgairn cleared for Eureka, and will return here later for a part cargo of barley and sail in December for Melbourne.

The Danish steamer Arabien is due from Antwerp with general cargo for Parrott & Co.; the British steamer Detmold is due from Norfolk with coal for the government, and the British steamer St. Michael is due from Iquique in ballast. All three are expected before morning.

AUSTRALIAN LINER SPOKEN OFF COAST

MAKURA DOCKING HERE
FROM SYDNEY TUESDAY

Capt. Gibb on Last Trip as
Commander—Shipping of
Next Week

Twelve hundred miles from Tatoosh the big passenger steamship Makura, Capt. Gibb, of the Canadian-Australian line, was spoken last night by the Triangle wireless station. The liner reported she was that distance at sea at 8 o'clock last night, and it is estimated that she will dock here early on Tuesday morning. Capt. Gibb in his message reported "all well."

The Makura is making her last trip here with Capt. Gibb as her master. At Vancouver he will relinquish command of the steamship to Capt. Morley, formerly master of the Marama. Capt. Gibb is going to England to join the new Canadian-Australian liner Niagara, which will be leaving England very shortly for Sydney, N. S. W. The Niagara will make her first trip to Victoria in the spring of next year.

The passenger list on the Makura is not very large, as at this season of the year the trend of travel is southward. In the saloon are a number of distinguished Australians. The Makura is bringing in 1,500 tons of cargo, of which about 100 tons will be discharged at this port.

Other Ship's Due In.
Four other liners are expected in port next week from different parts of the globe and one steamship is scheduled to sail. The Osaka Shosen Liner Panama Maru, Capt. Kanoo, is expected.

TRANSCONTINENTAL WIRELESS MESSAGE.

San Diego, Cal., Nov. 8.—Messages were exchanged by the navy wireless station at Point Loma and the new navy station at Artinger, Va., approximately 3,500 miles across country. The signals were unusually distinct, say the local operators.

ed in from Yokohama on Thursday, although no wireless messages have yet been received from her. She has a big cargo to put off, some 600 tons being stowed in her holds consigned to Victoria. The Panama also has a good list of passengers.

The Harrison liner Magician, which is expected in port early next week, is expected to have left San Francisco yesterday for Victoria. If she got away at that time her agents expect her to dock here about Monday afternoon. She has several hundred tons of cargo aboard for this port.

At the end of the week the R. M. S. Empress of India, Capt. Beetham, will dock here from the Orient. It is expected that the west coast station will pick her up by wireless early in the week, and something learned as to the time of her arrival.

The Lonsdale, Capt. Bate, of the Canadian-Mexican line, is expected in at the end of the week, completing her last trip in the Mexican service.

Only Outward Ship.
The only outward steamship this week will be the Osaka liner Tacoma Maru, Capt. Hamada, which is scheduled to sail on Wednesday. She is taking out a full cargo of wheat, flour, fish, lumber, machinery and general merchandise to the Orient. The Tacoma will also have a fair list of passengers.

CARGO OF FROZEN HALIBUT.

Vancouver, Nov. 8.—With a full cargo of frozen halibut for the New England Fish Company the steamer Northland, of Seattle, is expected this afternoon from Ketchikan. Herbert C. Bradford, agent for the Northland S. S. Co., is in the city to-day from the Sound renewing acquaintances among the shipping fraternity.

CAPTAIN AND MATE AFTER EACH OTHER

Inquiry Into Discharge of Mate
of Sampson—Much Sarcasm is Shown

New Westminster, B. C., Nov. 8.—Interchange of personalities between Captain Young and Mate Boyd again marked to-day's session of the inquiry before Commissioner Bole regarding the alleged disappearance of stores from the government schooner Sampson.

One of the most direct of these came from Mate Boyd, when he was cross-examined by the captain regarding his statements that supplies of paint had gone astray. The mate was skeptical regarding the captain's suggestion that paint had been used on the renovation of the lighthouses, buoys and different parts of the ship.

He expressed the opinion that it was a peculiar coincidence that at the time large quantities of white and drab paint were missing the captain's residence was being repainted in exactly those colors.

"Now you are becoming too personal and will have to substitute your suggestion," angrily asserted Captain Young.

Previous to this Captain Young admitted that the mate's former testimony that he had been discharged, not because of incompetency, but because he had given information to J. D. Taylor, M. P., regarding leakage from the stores, was true in substance. At the same time Captain Young reiterated his charge that Mate Boyd was not qualified to fulfill the duties of his office. He further stated that on several occasions he had been unable to find the mate and had been obliged to entrust the fulfillment of orders to an inferior.

Asked why he had not discharged Boyd previous to the report regarding store shortage, Captain Young stated that he had refrained from taking action because in the past he had had trouble from the protests of discharged men and wished to avoid recurrence of unpleasantness. Mr. Turner, in charge of the survey work for the government, had often spoken to him of Mr. Boyd's incompetency, he said, and on one occasion had been obliged to get some other person to steer the launch while they were at work.

The inquiry is still proceeding.

Several details of operation of the Panama canal remain to be settled. One is the job of pilot, as each vessel going through will be compelled to engage a specially licensed government pilot. Whether a charge will be made for this service has not been announced.

The C. P. R. steamer Princess Sophia, Capt. Campbell, left the outer docks to-day for Vancouver with 900 tons of Oriental freight discharged here by the Awa Maru. After unloading this cargo at the Terminal City the Sophia will load general cargo for Prince Rupert.

Boston feels elated at the successful conclusion of negotiations with Herr Ballin of the Hamburg-American Line for the institution of a service between Boston, British Channel ports, Cherbourg and Hamburg, beginning next May.

Officials of the Alaska Steamship Company announce that the steamer Dora, plying from Seward to Dutch Harbor and ports to the westward, would be brought to Seattle for her annual overhauling after her November voyage is completed. The Yukon, which will go as far west as Kodiak on her December voyage from Seward, will go to Dutch Harbor, replacing the Dora. The voyage beginning in Seattle November 29 will be the first of the Yukon in Alaska waters.

THE THREE BRAVE COWICHAN INDIANS.

Wm. Tsonhalem, Donnat Charley and Bob Klutwhalen, who were presented with gold medals at Duncan on Tuesday last for the bravery they displayed at the wreck of the steamer Inopu on April 10, 1911. They rescued two men and one woman from drowning.

Five Acre Ranches

SEATON PARK, ALBERTA.

R. V. Winch & Co., of Victoria, this week announce that they have placed "Seaton Park" on the market, and that this desirable subdivision will be sold in five-acre blocks. This land is located on the Sprout Lake road, and there is a frontage on the Sonoma River. The point where this frontage comes in is one of the finest on the river, and the surroundings are picturesque. The land is largely alder bottom, and there is a good chance for one of those small ranches that are so much in demand in the district just now. The five acres is quite enough to enable a man to have all that is required in the way of a garden, poultry run, fruit trees, etc., and at the same time to be within reaching distance

of the City of Alberta. The country immediately surrounding Seaton Park is one of the best for both fishing and hunting, and some of the finest catches of trout taken in the district have been from the river along the side of the park. The land is reached from Alberta by some four miles of one of the best roads to be found in the district. This road will be the one to be extended to Long Beach in time, and then the property will be on the main trunk road of this part of the island. Seaton Park should become a favorite with those who wish to live a little way out of town, and at the same time be within reasonable distance of the business centre of the district.—Alberta Advocate, 1st November, 1912.

STRIPPING OF SHIP WELL CARRIED OUT

Even Locks Were Taken From
Doors of Kestrel—Out
in Two Weeks

Outfitting of the steamer Kestrel for her trip from Victoria to Honolulu and the Washington and Fanning Islands will be more extensive than was at first thought. It was discovered upon a careful examination that the work carried out a short time ago of stripping the steamer had been done extremely well. The compasses, lead lines and everything else required for the navigation of the vessel were gone, and even the brass locks had been removed from the doors.

The representative of the owners of the Kestrel is now engaged in searching for officers and men to man the vessel. It is stated that a captain and first mate have been signed, but the new owners are rather reticent, and refused to give out the names at present. As soon as the master is placed in charge the work of carrying out the outfitting of the Kestrel will be commenced in earnest.

Machinery Overhauled.
The overhauling of the steamer's boilers and engines has been carefully undertaken, and all her machinery is reported in first-class shape. It is expected the Kestrel will be hauled out on the Victoria Machinery Depot ways about Tuesday of next week to have her hull scraped and painted. Some time has elapsed since the Kestrel was on the slip for painting, and there is considerable sea growth on her hull at present.

It is not likely that the Kestrel will be ready to start on her run south to Honolulu for two weeks. The outfitting will take some time, and the signing of a crew will not be a quick job.

The G. T. P. steamer Prince Rupert, Capt. Johnson, will arrive in port to-morrow morning from Prince Rupert.

IS DEPORTED.

Member of I. W. W., Who Claims He
is Canadian Citizen, Ordered
From California.

San Diego, Cal., Nov. 8.—Robert Goeden, a member of the Industrial Workers of the World, who has been in the local jail awaiting deportation since last February, has been taken north on the steamer President in charge of Immigration Inspector Willard Chaffin. Chaffin will take his prisoner to Vancouver and on arrival there will give him over to the Canadian authorities.

Goeden, who claims he is a Canadian subject, was arrested here soon after the attempted assassination of Patrolman Stevens. He was later tried and found guilty, being released on probation. Immigration officers soon after arrested him as an undesirable alien and his deportation was the culmination of the decision which was rendered against him.

Magical Effect of New Face Peeler

(Woman's National Journal.)

To maintain a clear, rosy, youthful complexion, there's nothing so simple to use and yet so effective as ordinary mercolized wax, which you can get at any drug store. Just apply the wax at night as you would cold cream; in the morning wash it off with warm water. If you've never tried it you can't imagine the magical effect of this harmless home treatment. The mercolized wax causes the worn-out, scurfy skin to come off in minute particles, a little at a time, and soon you have entirely shed the offensive cuticle. The fresh young under skin now in evidence is so healthy and girlish looking, so free from any appearance of artificiality, you wonder why you had not heard of this marvelous complexion-renewing secret long ago.

To get rid of your wrinkles, here's a formula that is wonderfully effective: 1 oz. powdered asaxolite, dissolved in ½ pt. witch hazel. Bathe the face in this and you will be amply astonished at the results, even after the first trial.

Every Back Pain is a Dangerous Pain

How often you feel that dull, tired ache in your back and wonder what causes it. Look out for it. There is never a pain without a cause and the cause of this pain is going to lay you up some day for months. It tells of weakness, and you should cure it. Your kidneys may be crying for need, and your spinal nerves may be exhausted and want strength; you may have locomotor ataxia in its first stage; or lumbago, all of which are serious and need to be cured for to protect health.

Do you think a dose of medicine taken into your stomach will relieve the pain? It may be stupefying the nerves, but that is not relief. Do you see that there's only one way to cure that trouble, and that is by giving strength to your back if it is weak, or helping the circulation if there is congestion.

Electricity will do that by giving its strength to the back, muscles and stimulating circulation.

No pain nor weakness can exist where electricity is, for electricity is the life of the body, and when it goes in, pain goes out.

Electro-Vigor is a body battery which you apply while you sleep. It saturates the nerves and muscles of the back with electric life, adding nerve strength daily until it is restored to its natural healthy condition. Electro-Vigor is not an electric belt. It never needs charging, but it

makes its own power constantly. It is the only successful electric body appliance, and has cured hundreds after the failure of doctor and drugs.

The Electro-Vigor Co.
Dear Sirs:—We received the Electro-Vigor promptly. I read the directions and found that it worked all right. I used it two nights and my back pains are all gone, for which I am very glad. Anybody who wants to get rid of back pains promptly should get an Electro-Vigor. Do not bother with the vinegar bells, as I have used them and they are not strong and you feel little or no results. Yours truly,

WEEK OF PRAYER.

Local Y. M. C. A. Will Participate in
Annual Event—Noon Addresses.

The Victoria Y. M. C. A. will observe the world's week of prayer, beginning to-morrow and lasting until Sunday, November 17.

Each day will have its special object of prayer, and beginning to-morrow

the following topics will be given special attention on the successive days of the week: The Association, The Brotherhood, Bible Class, Community Extension, Social Service, Patriotism, Immigration and Evangelization.

In the local programme for the week are included short addresses by local preachers to be given in the luncheon hour each day, commencing at 12.15 and continuing until 12.45. The following gentlemen have expressed their in-

tention of delivering short addresses in the order named: Dr. C. T. Scott, Dean Doull, Rev. J. B. Warnicker, Rev. Thomas Green, Rev. H. A. Carson, Rev. W. Leslie Clay.

At the end of the week of prayer two great mass meetings will be held to-morrow week—one for boys and the other for men. The former are to be addressed by F. G. Moran, of Seattle, and the latter by H. W. Stone, of Portland.

HIGH SCHOOL SITE

AND GRADING WORK

Need for Comprehensive Plan
to Embrace Full
Development

The large amount of work yet to be done in connection with the levelling of the new High school site has been informally discussed by the members of the city council, with a view to securing for the engineering department some definite understanding about the work which is required immediately, and the subject was briefly considered by the streets committee yesterday.

The city is bound under agreement with the school board to grade the whole area which has been purchased, and cover it with a suitable soil for turf, but in view of the necessity of providing for a playground, the city would like some idea of what should be done first, and carry that through. As a matter of fact the time set down in the agreement, namely, March of this year, has long since passed.

There should be some arrangement made for the development of the property in some systematic manner, so that the grounds may be ready by the time the school is occupied at the end of next year. The natural fall of the land would afford a fine pond for aquatic plants, surrounded by a small botanic garden for the education of students, and there should also be a shrubbery planted at one end for protection of the property from the winds inevitable owing to the exposed situation.

FIFTH REGIMENT.

Four Granted Discharge, Equal Number Attested—Col. Currie Again in Command.

The following regimental orders are issued by Lieut.-Col. A. W. Currie, commanding the Fifth Regiment, C. G. A.:

1. Discharged.—The following men having been granted their discharge are struck off the strength from this date: No. 91, Gr. W. J. Hook; No. 304, Gr. W. J. Walker; No. 321, Gr. B. S. Rutley; No. 329, Gr. G. H. Bevan.

2. Enlisted.—The following men having been duly attested are taken on the strength from the 14th October, 1912: No. 65, Gr. Sydney George Fieldsend; No. 71, Gr. Thomas Woodford Smith; No. 210, William M. Nicholson; No. 253, Gr. Fred Wells Smith.

3. Return from leave.—Lieut.-Col. A. W. Currie having returned from leave assumes command of the regiment.

4. Duty.—Major W. Ridgway-Wilson resumes the duty of adjutant, and

Lieut. R. P. Clark resumes duty with No. 1 company.

5. Parade.—The regiment will parade at the drill hall on Friday, November 15th at 8 p. m. Dress, drill order.

6. Regimental association.—After the regimental parade on Friday the 15th instant the regimental association will meet to discuss the consolidation of the drill pay.

7. School of instruction.—The syllabus for the regimental school of instruction as posted on the notice board

is hereby cancelled. Infantry work will be continued until further notice.

8. Officers' meeting.—The regular monthly meeting of the officers' mess will be held in the drill hall on Thursday the 14th inst., at 8.30 p. m.

9. Rifles, etc.—All rifles and equipment must be returned to the drill hall before November 30th for the annual inspection of arms, etc.

10. Sergeants' meeting.—The first regular monthly meeting of the sergeants' mess will be held in the drill

hall on Thursday the 14th inst., at 8 p. m.

SPORTING NEWS

CONDON WILL COVER SIDE BET FOR RETURN BOUT WITH HYLAND

Bayley's Manager Requires \$2,000 Guarantee and Transportation From the Promoters—Champion Will Leave for Prince Rupert Next Week to Fight Sammy Goode

"I am willing to post two thousand dollars immediately to clinch the bout between Hyland and Bayley, but before settling matters, I would like to hear what the Calgary promoters can offer, in the matter of a purse or guarantee," said Morris Condon last night, when shown a telegram from Calgary to the effect that Hyland had posted \$2,000 with the News Telegram, to bind a match. Condon stated that he would require three round-trip tickets to Calgary and return, and a \$2,000 guarantee, or conditions similar to the last bout which Tommy Burns staged between this pair.

Will Post Side Bet.

Bayley's manager is willing to post with the sporting editor of the Times the necessary side bet, but would like to hear from the promoters before doing so. Bayley will leave to-morrow Monday for Prince Rupert for his bout with Sammy Goode on November 16th.

Word reached Victoria this morning that Tommy Burns was in Edmonton. A. H. E. Beckett, sporting editor of the Calgary News-Telegram, left Calgary last night to arrange terms for the bout.

NO CHANCE OF A SALARY LIMIT FOR THE NORTHWESTERN LEAGUE

Victoria Baseball Magnate Says Bees Will Oppose Move—Other Clubs Are Also in Line Against Proposed Salary Check—Schedule of Limits Given Out

"There isn't the slightest possible chance that the Northwestern will adopt any salary at the coming gathering of the minor league clubs at Milwaukee on November 12," stated a member of the Victoria ball club to the Times this morning. "It is hard enough for the clubs to secure good players for this league without attempting to place any restrictions upon the money they shall draw from the coast clubs. Another matter is the application of the Northwestern for higher rating. If the Northwestern magnates go and enter a plea for Class 'A' classification and turn round and immediately ask for a salary limit, they will stand a decidedly small chance of getting either concession."

Will Oppose Limit.

With the possible exception of Owner Ed. Watkins, of the Tacoma club, all Northwestern League directors will oppose the proposition to fix a salary limit.

The McGredies, of Portland, do not think it practicable, while Bob Brown, Dugdale and Cohn will vote against any proposed change. Of the Class "AA" leagues, the Pacific Coast and International are opposed to a salary limit of \$6,000.

All Leagues Interested.

Springfield, Ohio, Nov. 8.—That an effort is to be made at the meeting of the minor league club owners at Milwaukee November 12 to control salaries of players, became known here as a result of President Michael Sexton sending out letters to this effect.

The project is to fix the pay of the men as follows: Class A, \$200 to \$300 a month; Class B, \$150 to \$200; Class C, \$75 to \$150; Class D, \$50 to \$100. Class AA proposes to limit its salary roll to \$6,000 a month for the entire team.

CHANCE OR BRESNAHAN.

Cincinnati, O., Nov. 8.—After breaking off the negotiations with President Charles Murphy for Joe Tinker, as manager of the Cincinnati team, President Hermann last night wired Roger Bresnahan, of the St. Louis Nationals, and Frank Chance, last year's manager of the Chicago Nationals, for their terms.

BARRIEAU CONFIDENT.

Edmonton, Nov. 9.—Barrieau last night made the following statement: "I am in good shape and expect to win. The report about my being opposed to the referee is wrong. I have not objected to anyone, and have left it with the club to pick any referee they want." Barrieau fights Scaler here to-morrow.

DE ORO NOW LEADS.

New York, Nov. 9.—Showing considerable improvement in play, Alfred De Oro, the Cuban holder of the world's pocket billiard title, forced ahead last night in the second block of his 600 point match with Frank Sherman. The total score now stands: De Oro 400, Sherman 345.

REMARKED ON THE SIDE

Dickie Hyland Hasn't Lost His Nerve.

For real downright gall, you have to hand it to one Richard Hyland, late of San Francisco, but who is now stopping off at Calgary. Dick was a real fighter some years back, but when he began to slip, he could not secure a match with a third-rater across the border. He put over a fine come-back when he emigrated to this fair Dominion and now he is shooting the hop as if he were a real fighter. A couple of easy battles put him in line for a fight with Joe Bayley, the Canadian lightweight champion, and by securing a draw with the title-holder, he has bucked up enough courage to take a stand that is usually occupied by champions. He has even tried to dictate terms to Bayley, but the latter, fortunately, has not lost his sense of humor and is taking Hyland's proposals in the right light. A little publicity amuses certain individuals, and it seems to appeal to Hyland. However, our opinion of Hyland is that if he was as good a fighter as he is a con artist, he would now be holding the world's championship.

Toronto Clubs Are Getting In Cheap.

From this distance it looks as if the Queen City clubs in the National Hockey Association are taking the very steps that will put the blinkers upon the N. H. A. as a major league. Several Ottawa hockey players were approached by the managers of the Toronto clubs, and offered the "princely" sum of twenty-five dollars a week to play for the Queen City team. Just imagine how extravagant those clubs are. Twenty-five dollars a week will not hire a decent rubber for the athletes, yet the Toronto management have the effrontery to offer that sum to prospective hockey stars. From the spend-thrift efforts of the Toronto clubs one is led to believe that it will be a lean year in the N. H. A., more especially so if the Patrick brothers carry out their threats to bereave the East of its hockey stars. However, from what the writer knows of amateur hockey in Toronto, it will have to be a pretty fair brand of the professional variety that will displace the Simon Pure article. The newspapers are against the professionals for the sole reason that the N. H. A. is sticking to the six-man style of hockey, and the Toronto team will have to finish in the first flight if they are to pay expenses and at the same time establish professional hockey for all time in the Queen City.

Chaos Reigns in McKee Cup Rugby.

Charges of professionalism by the Vancouver club and counter charges by the local team, have marred the preparations for the McKee Cup series this year. Not for many seasons has Victoria's Rugby fans been stirred as during the past week, and while the excitement means a record gate for Coast Rugby, the unenviable notoriety that the charges have received will not help the Coast Rugby Union. Victoria showed good sportsmanship in agreeing to drop Thomas, and while the game will be played under protest, there is no reason why the locals should not win by a comfortable margin. The charges have brought about one good result, in that they will clean up the situation for all time and determine exactly where the B. C. R. U. stands in relation to the parent body in England. The upheaval had to come at some stage or other, and it is perhaps just as well that it happened this season, when Rugby is enjoying such popularity in Victoria.

Some Real Good Advice For Our Champion.

Lightweight Champion Joe Bayley might as well learn now as later, that if he ever expects to attain the top of the lightweight ladder, he must learn to fight straight Marquis of Queensbury rules, with the principals protecting themselves at all times. As long as he insists upon fighting clean breaks, he will remain a second-rater, even though he should win every bout. A champion, in order to be a champion, must have won the title under Marquis of Queensbury rules, as long as these rules are accepted as the governing rules of the game.—Calgary Albertan

PRESIDENT OF A. A. U. WILL TAKE UP MATTER

Swimming Association and J. B. A. A. to Be Brought Together If Possible

Until word is received from Dr. Davidson, president of the British Columbia Amateur Rugby Union, no steps will be taken to smooth over the present situation that exists in local swimming circles. The differences between the James Bay club and the B. C. branch of the C. A. S. A. will be laid before the head of the Provincial Amateur Union. The James Bay club are desirous of holding a swimming meet here next summer which the C. A. S. A. have not yet sanctioned. The J. B. A. A. directors have received a sanction from the N. P. A. A., an international swimming association, and declare their intention of going ahead with the meet. The club is affiliated with the A. A. U. and not the Swimming Association, and there the difficulty lies. Dr. Davidson will endeavor to bring about an amicable settlement.

Officers Elected.

At last night's meeting of the local amateur union W. Rothwell, a football player, and Harry Wheeler, a boxer, were registered as amateurs. They had been under suspension for a time for trifling offences.

The following officers were elected: Hon. president, Sir Richard McBride; president, D. O'Sullivan; vice-president, A. Lockeley; secretary-treasurer, Harry Skuce; registration committee, R. McInnes, Oak Bay club chairman; P. N. Tester, Sidney A. C.; S. Lorimer, J. B. A. A.; A. Innes, Thistles football club, and A. Lockeley.

JOHNNY KILBANE A LUCKY CHAMP

How He Managed to Beat Attel Puzzle to Everybody—White After Title Holder

Chicago, Nov. 9.—How Johnny Kilbane happened to beat Afe Attel is a question New York fight fans are unable to solve. The ex-featherweight champion either has gone back or was not in shape when he fought Kilbane. Attel sat at the ringside the night the present title holder and O'Keefe fought. After it was over he declared:

"I don't know yet how that fellow beat me."

The featherweight championship belongs right here in Chicago if Kilbane is no better than he showed the night he fought O'Keefe in New York. Charlie White is regarded as the best local 122-pounder and it is thought by his friends if he is given the opportunity he can wrest the title away from the Cleveland fighter. White has met the champion and beaten him, but since he gained the championship it has been impossible to arrange a match. In the bouts they clashed in the local featherweight White outpunched Kilbane and also outpunched him. The fights were held in Cleveland, Ohio, Kilbane's home town, and as a consequence White is said not to have received what he was entitled to.

White has been seeking a match with Kilbane ever since the latter won the championship from Attel. Nate Lewis, manager of the local boxer, opened negotiations, but never consummated them, as the champion demanded too much, Lewis said.

JOHNSON IS OUT ON BAIL

Chicago, Nov. 8.—Jack Johnson, champion negro pugilist, was indicted by the federal grand jury yesterday, charged with violation of the Mann Act against the transportation of women from one state to another. Johnson was indicted on four counts and his bail fixed at \$30,000 by United States Judge Landis.

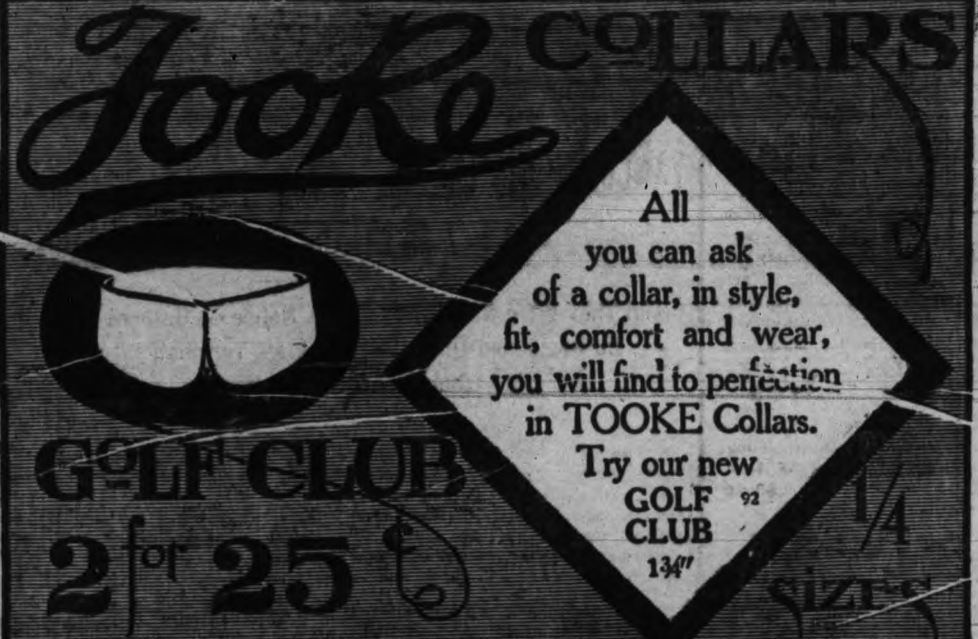

Johnson, champion heavyweight pugilist, was arrested by federal officers late to-night. After several hours' work, Johnson found a court clerk willing to act and the prize fighter was taken to the home of his aged mother on the south side, who signed the bonds, along with several others, and Johnson was released.

FRENCH BOXER PASSES UP MIDDLE'S TITLE

Finding it impossible to make 160 pounds, which is the middleweight limit in France, Georges Carpentier, the French champion, has notified the French Federation of Boxing that he no longer wants that title as he is getting so heavy that he is unable to make the required weight.

City League Meeting Postponed Until Next Week—Y. M. C. A. Club Organized

Owing to the inability of several of the clubs to send representatives to the Y. M. C. A. last night, the proposed organization meeting of the City Hockey League was postponed for a week. An effort will be made to get the clubs together in a few days and rink arrangements for ice accommodation at the Arena have been completed. The matter of forming an inter-city with Vancouver and New Westminster will also be gone into at this gathering.

Officers were chosen for the Y. M. C. A. hockey club last night, the list being as follows: W. J. Cook, president; D. S. Murray, vice-president; S. Murphy, treasurer, and D. M. Watson, secretary. They also elected Messrs. Peters, Heneker and A. Willis to act with the above officials as the executive body of the club.

EXCUSE FOR BOXERS.

English Weekly Says That They Are Trained for Two Minute Rounds.

Boxing, a London weekly, devoted exclusively to affairs of the prize-rings, offers the excuse for the decline of English fighters the fact that they are trained for two-minute periods of action and for this reason are not able to keep pace with American and French pugilists, who are accustomed to the three-minute rounds.

Boxing says that the British custom has induced laziness in training and sluggishness in actual performance. As a result the English fighters begin to tire when things are just getting good with their American and French

opponents. The only explanation ever offered for the two-minute round custom in the tight little island is that the promoters are anxious to crowd more events into the programme and thus make up in quantity what their cards lack in quality. At any rate the short periods make duck soup for American lads of the Nelson or Wol-gast type, who can keep up a pace from sunrise to sundown and improve with each passing moment.

Beware of the Car Made for Trading

Get a fair price for your old car. But don't demand anything unreasonable or you will pay for it in unsatisfactory quality and poor service in the new car

If you are trading your old automobile in on a new one, here is a caution you should observe.

There are cars toward the purchase of which a larger price will be allowed for your present automobile than you can obtain in buying a more desirable automobile.

It is better to decide upon which car you will prefer. Satisfy yourself that it is the best buy at a cash price, and that it is the one you would choose if you were paying cash. Then if you are selling your old car, obtain the best bargain possible.

But do not accept merely for the sake of a change in cars, an automobile that you do not consider advisable at a cash price.

HUDSONS are not made to trade. HUDSON automobiles "second-hand" command a higher price proportionate to their original cost than those of any other make in the medium price class. They are not sold to the dealer at a large discount thus permitting him to make an extra allowance for old cars. No more profit on the HUDSON is allowed than that given on most automobiles at similar price.

The quality of the car is to be depended upon to make the sale, not the inducement of price. That is why 48 engineers are regularly employed by the Hudson Motor Car Company in designing HUDSON automobiles.

The HUDSON shows what all these men working in unison know. They gained their knowledge of motor car building in 97 well-known American and European factories. They had a hand in building more than 300,000 cars. No restrictions were put upon them in building the New HUDSONS. The highest quality was sought for and obtained. Price was not fixed.

Electric Self-Cranking—Electrically Lighted

They Are Completely Equipped

They are electric self-cranking, are electric lighted and have every detail of equipment including speedometer, clock, demountable rims, rain vision windshield, tool kit.

There are two models. HUDSON cars are furnished in two chassis—the "37," a four-cylinder, and the "54," a six.

The equipment is identical in both cars, consisting of an electric crank-ing device, electric lighting generator and ignition system, known as the Delco Patent.

The equipment is complete in every respect including top, rain vision windshield, demountable rims, speedometer, clock, tool kit, etc.

The "37" has a 118-inch wheel base. The "54" has a 127-inch wheel base. They are furnished in either Five-Passenger Touring car, Torpedo or Roadster body. The "37" sells at \$2,000—the "54" at \$2,400. F. O. B. Victoria. The "54" with Seven Passenger body is \$3,000.

VANCOUVER WILL NOT ATTEND

MEETING OF RUGBY UNION

Claim They Were Not Given Enough Notice — Gathering Will Be Postponed Until Next Week — Terminal City Club Arrive for Game

A meeting of the British Columbia Rugby Football Union has been called for here this evening to thresh out the troubles between the Vancouver and Victoria Rugby unions, but it is just questionable whether there will be any reason, though the Vancouver Rugby union is here represented by fifteen stalwart players, half a dozen substitutes and several members of the executive. The Vancouver union was notified yesterday of the meeting, but neither of the delegates to the provincial union will be on hand to-night, and nobody else has the credentials.

Meeting Unlikely. According to the rules of the union a week's notice must be given of any special meeting of the executive, and this the Vancouver men claim has not been given in this case, the call for the

meeting only having been sent out yesterday. Under the circumstances it is not likely there will be any representative of the Vancouver union at to-night's meeting, and the gathering will be unable to do any business for lack of a quorum.

Visitors a Sturdy Lot. The Vancouver players arrived on the Princess Adelaide this morning. They are a sturdy-looking lot and they are quite confident of winning apparently, though several supporters of the team who came along with them were looking for odds on to-day's game. The Mainlanders recognize the worth of Victoria's pack and they figure that if they can hold the Island forwards they will have a glorious chance to win, for they claim that their back division is the best that has represented the Terminal City in several seasons.

M'GRAW WILL STRENGTHEN

FOR THE SEASON OF 1913

New York, Nov. 9.—The McGraw will strengthen the Giants before next season is a certainty. He has never been a stand-patter, and with the Pirates a whole lot more formidable than their percentage in last season's race would indicate. McGraw realizes that he will have to improve his club to be front at the finish. With Meyers, Wilson and Hartley for catchers and a pitching array headed by Mathewson, Marquard, Tressau and the much-touted Demaree, with four or five others to help out, he is all right in the battery department, although

doubtless another good right-hander would be welcomed. Merkle at first, and Fletcher at shortstop cannot be counted absolute certainties—Merkle because he is a bit lacking up to top and always was, and Fletcher because of his inherent weakness with the willow. Red Murray in the outfield looks sure; but Snodgrass and Devoree will have to fight for their places. McGraw turned his team upside down after beating the Athletics in the world's series of 1905, and he will be busy along much the same lines the coming winter.

one to join the amateur league of the city, and to play in the inter-city league matches. After the meeting the executive went to make arrangements with the authorities for the use of the

rink. A decision to hold a meeting of the amateur association after the meeting had to be withdrawn as no members of other clubs could be found.

MATCH NOT CINCHED.

Sam Good and Joe Bayley Have Not Settled Upon Division of the Purse.

The proposed boxing contest between Sam Good, the Vancouver lightweight, and Joe Bayley, of Victoria, champion of Canada, for Prince Rupert on Saturday, November 16, is not yet assured. The managers were to have signed articles and posted forfeits Thursday, but a disagreement as to the division of the purse cropped up and Johnny Leonard, manager for Good, declined to sign. It is expected that everything will be adjusted satisfactorily however.

LITTLE BITS OF SPORT GOSSIP

Manager Nicholson, of the Tecumseh, claims to have twenty men under contract. As he can only play six what is he going to do with the rest? Lend them to Lichtenheln.

It looks as if Fred Taylor will go West and play with one of the Coast clubs this year. With Taylor, Johnston, Lalonde and Pitrie all slated for the Coast, the Western hockey moguls look to have the best of the war.

They are trying to get Pittsburg in the new International hockey league. This would make a five-club circuit, with Detroit, Hamilton, Syracuse, Victorias of Toronto and Pittsburg.

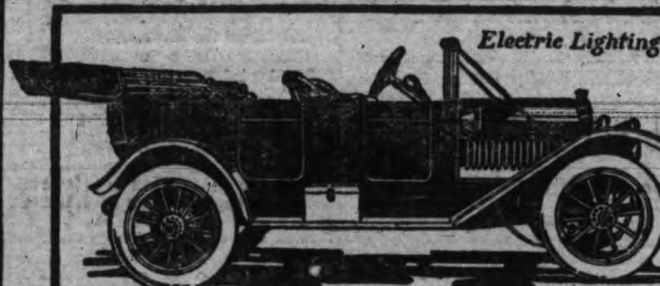

Both Toronto professional teams are hot on the trail of Frank Rankin, the star of the Eaton O. H. A. champions.

Umpire Bill Brennan, who says he is going to sue Fogel for slander, basing damages at \$25,000, is the latest addition from the baseball ranks to the stage. He is going out in vaudeville next week.

Many stars of the baseball firmament once shone on football fields. Mathewson was once famous for his drop kicking, Harry McCormick for his line plunging, and Merkle for his end running and tackling. Few persons know that the Giants' first baseman once came from behind the speedy Heston, caught him and brought him down. Stahl was another hero of the gridiron.

Manager Nicholson, of the Tecumseh, is strong for the seven men hockey, and here is his opinion of the six men idea:

"It breaks up combination and makes it purely an individual game," he declared. "In the old days teams used to play the individual style of hockey. Then combination came along, and the

CONDON MUST HAVE GUARANTEE—

WILLING TO RAISE SIDE BET

Burns Offers Division of Gate to Principals — Edmonton Offers Bayley \$1,500 for Bout With Scaler—Bayley Will Not Fight to Make Money for Burns

Morris Condon this morning refused to consider the terms that Tommy Burns offered for a bout between Joe Bayley and Fighting Dick Hyland. The Calgary promoter wired Joe Bayley's manager that he would stage the bout on December 30th, giving the principals 60 per cent. of the gross gate. The money division for the latter was 50 per cent. to the winner and 40 per cent. to the loser. No mention was made of any expenses or guarantee. Condon replied to Burns' telegram with a message stating that he must have \$2,000 guarantee and three round-trip tickets. "I'm not going to fight to make money for Burns," was the statement of the champion's manager.

Lowes May Referee. Condon does not object to Freddy Lowes as referee, but would rather leave the question open for a few

weeks. Bayley's manager will deposit \$2,000 as a side bet, just as soon as he hears from Burns. It might here be mentioned that Bayley received the above guarantee for his last fight, and as the coming bout ought to prove a better money getter, Condon is extremely reasonable in his demands. MacDonald, of Edmonton, has offered Bayley \$1,500 to fight Scaler in that city, which Condon will accept, unless Burns comes across with the guarantee.

Will Raise Side Bet.

Burns added a proviso that Bayley win over Goode, at Prince Rupert, adding that he didn't think there was a chance in a million of Bayley covering Hyland's side bet. Well, for Mr. Burns' information let it be known that Bayley's supporters are willing to raise that bet to any figure that Hyland sees fit to put up.

teams with combination could beat a team of all-stars. Now this six man game throws the game back to the days before they developed any combination."

Just before Clark Griffith started for his home in Montana for a month of hunting the directors of the Washington American League Club, in meeting assembled, came across with a

\$3,000 raise in Griffith's salary, which means that he will pull down \$10,000 in 1913, the same amount called for under his contract with Garry Herrmann at Cincinnati in 1911.

The Handiest Way To Shave

Some men, who have shaved for years with the old-style, long-bladed razor, find it hard to believe that the Gillette Safety Razor is really handier and quicker.

So the quill-using clerks of old must have looked askance at the first steel pens—until they learned by experience how much more effective they were.

A few days' experience with the Gillette and a man finds he can shave with it quicker and more easily than he could with the long-bladed razor after years of practice.

Holding the Gillette lightly, like a pencil, you can shave any part of the face, in any direction, using the true Angle Stroke. Those awkward spots around the chin and the angle of the jaw will give you no trouble whatever—and with the Gillette Safety Razor you will not cut your face.

Moreover, the Gillette can be adjusted, by a slight turn of the screw handle, for a light or close shave, or for a soft or heavy beard. This adjustability, which adds so much to the comfort of shaving, is found in no other razor.

Why worry along in the old way, when the Gillette way is so much easier, quicker and more comfortable?

SCHOOL LEAGUE SOCCER.

This morning at Beacon Hill the South Park under sixteen team defeated the North Ward school by the score of two goals to nothing. The game was one-sided throughout, nearly all the play being near the North Ward goal and it was through poor shooting that they did not pile up a lopsided score.

During the first half, with the wind against them, South Park managed to score one goal, but in the second half the Wards did not try to score against South Park, but played on the defensive, all their players being bunched up in the goal to prevent South Park from scoring. The two Copa brothers scored the goals for South Park.

Girls' Field Hockey.
The George Jay school girls defeated the South Park school by the score of 2 goals to 1. The game was always in doubt. Although South Park had the ball up at their opponents' goal most of the time, they were unable to score. The game was played at the Beacon Hill cricket grounds, and the grass was very slippery after the rain, which made the game somewhat slower.

SCOTTISH LEAGUE RESULTS.
Glasgow, Nov. 8.—Scottish league games played to-day resulted as follows:

Aberdeen, 2; Kilmarnock, 0.
St. Mirren, 1; Airdrieonians, 0.
Celtic, 1; Hearts, 0.
Partick Thistle, 2; Clyde, 2.
Dundee, 1; Raith Rovers, 0.
Hibernian, 2; Falkirk, 1.
Hamilton Academical, 0; Third Lanark, 0.

U. OF C. FAVORITES.
California-Stanford Battle at Berkeley Attracts Huge Crowd.

Berkeley, Cal., Nov. 8.—The deciding game of seven years of Rugby football will be played on California field to-day before stands and bleachers holding nearly 25,000 wildly-cheering supporters of the Blue and Gold of the University of California and the Cardinal of Stanford.

California will enter the contest at 10 to 9 favorite, the only reason apparent therefore being that recent rains have left the field soggy, and the advantage with the heavy team, California's advantage in weight is slight, however.

ROLLER BEAT CASEAUX.
Ottawa, Ont., Nov. 8.—Dr. B. F. Roller, of Seattle, Wash., defeated Caseaux, of France, last night at the local arena in a catch-as-catch-can wrestling bout.

ENGLISH SOCCER GAMES.
London, Nov. 8.—Results of league football games played this afternoon resulted as follows:

First Division.
Blackburn Rovers 2, Newcastle United 0.
Derby County 5, Sheffield United 1.
Everton 1, Chelsea 0.
Manchester City 1, Bradford City 3.
Middlesbrough 3, Liverpool 4.
Nottingham 1, Aston Villa 1.
Sheffield Wednesday 5, Oldham Athletic 0.

Southern League.
Queen's Park Rangers 2, Exeter City 1.
Barnford, 1; Portsmouth, 0.
Gillingham, 0; Brighton and Hove Albion, 0.

Victory for England.
London, Nov. 8.—In the amateur international Association game played to-day between England and Belgium, the former took the long end of a four to nil score.

SPORT NOTES.
Connie Mack is going to Cuba. Harry Wolverton is hiding in Bermuda and Charles A. Comiskey is lost in the deep recesses of the Wisconsin woods. They probably will remain some time, considering the upheaval in the National League. The plague might spread.

Although the Y. M. C. A. have only one victory chalked up to their win column out of five games played, they have always fought to the end in every game which they have lost and on three occasions they have been noised out by the margin of one goal. They hope to add another victory to their credit today against the Fifth Regiment.

Since the Under-Fourteen-Year League was formed in the schools four years ago, South Park has been successful in coping the trophy twice, and expects to win it this year for the third time.

Harry Copas, captain of the South Park under-fourteen team this year, is one of the best little players in the school league. In a game recently played against George Jay school under-sixteen team, Harry scored two of the six goals scored, even though the other boys were all bigger than he.

John Gregg is trying hard to get some new players for the J. B. A. A. Intermediates to take the place of the ones who have become down-hearted after their defeat by the Wards a few Saturdays ago.

RUMOR DENIED.

Montreal, Nov. 8.—"Ridiculous, utterly ridiculous," was the answer of Grand Trunk officials this morning to the Toronto World statement that the Grand Trunk Pacific does not intend to ever build the Winnipeg-Moncton line. "We have contracts with the government which we have to live up to. We have not only to do so, but we have every intention of it," the officials declared.

TRACKLAYING DELAYED.

Calgary, Alta., Nov. 8.—Canadian Northern tracklayers are still held up by the C. P. R. guard and wire fence. No trouble is reported from the scene. The next move of the C. N. R. is awaited with interest here. The mayor has not yet received reply from the headquarters of the company.

The barquentine Coronado, which sailed from Akutan harbor for Seattle October 23, passed in at Cape Flattery Thursday and anchored in Clallam bay. The vessel has been operated in connection with the Alaska Whaling Company's station at Akutan.

TRAIN ROBBER KILLED.

Redding, Cal., Nov. 8.—A reward of \$1,000 was offered to-day by the Southern Pacific Company for the capture of the bandits who held up the Shasta Limited last night at Delta, where the train had stopped to take water. Two of the bandits escaped from the mail car with a quantity of registered mail. A third, who held the engineer and fireman covered with his revolver, was shot by a brakeman on the train, who ran to a neighboring saloon when he saw the train had been held up, borrowed a rifle and killed the robber where he stood in the cab. No trace has been found of the two fugitives.

DIES IN CHURCH.

Toronto, Nov. 8.—John Hanahan, a prominent and wealthy contractor, died in St. Basil's church yesterday morning while he was attending early morning mass.

The Boscowits steamer Venture, Capt. Park, got away for Bella Coola yesterday afternoon, nearly two days late.

TAKE GIN PILLS FIRST and GIVE ADVICE AFTER

For Kidney and Bladder Trouble This Great Remedy Was Successful—Operation Was Unnecessary

ACTS show that scores—hundreds—thousands profit every year by taking just such good advice as two of the men mentioned below followed.

If you have constant headaches, pains in the joints, Swollen Hands and Ankles, a frequent desire to Urinate, if the Urine is hot and scalding, GIN PILLS will take away these symptoms of Kidney and Bladder trouble. That is what GIN PILLS were made for. However, it is better not to wait for the advice of your friends. Be quick to use GIN PILLS yourself and then you can give that good advice to others.

STONE IN THE KIDNEY WAS ERADICATED

This is the wonderful statement of a London man who had a case of terrible Stone in the Kidney, but GIN PILLS brought the relief which he did not get from Medical men. His letter speaks for itself.

"Over a year ago I was taken terribly sick with unbearable pains in the Kidneys, so called in a Doctor, and he said at once that I had a stone in the Kidney, and all he could do was to give me ease by injecting morphine. He said there was no cure but an operation. About two months ago I got a box of GIN PILLS and took one and two at a time, and then another box. A week ago the stone passed from the Kidney to the Bladder. Two days ago it passed away altogether. I have taken no other medicine but GIN PILLS, and it is through them that I am free from that stone."

This gentleman's name is withheld by request; his letter can be seen in our office.

Now, if you are suffering from any form of Rheumatism, Sciatica, Lumbago, Kidney Disease, Bladder Trouble, if you see black jumping specks in front of your eyes, if you have pain in the back, or trouble in urinating, don't wait for advice, but get GIN PILLS from your dealer to-day. 50c a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto.

GIN PILLS MADE LUMBAGO LEAVE HIM

"Winnipeg, January 6th, 1912.

"I have been a sufferer from Lumbago for some years past and during Christmas week had a very acute attack which confined me to the house. About the latter part of April I met your Mr. Hill and mentioned my complaint to him. He advised me to take GIN PILLS. I have been taking them at intervals during the early part of the present winter, and up to date have had no return of my old trouble—in fact, I feel better than I have for years and think my old enemy has vanished for good and all."

"H. A. JUKES."

Have you ever had Lumbago? Then you can imagine how different Mr. Jukes feels since he has got rid of it.

Cured Rheumatism When Climate Failed.

Here is what a well-known commercial traveller of Hamilton, Mr. W. G. Reid, writes:

"I have been for the last two years a cripple with Muscular and Inflammatory Rheumatism. I have tried almost everything known to medical science to relieve me of the intense pain and inflammation. I sought change of climate in Kentucky and other Southern points without relief. Your manager in this city recommended GIN PILLS and I have since taken eight boxes and am now cured. I consider GIN PILLS the conqueror of Rheumatism and Kidney Disease."

DOCTORS GAVE HER UP

Mrs. Stuart Finally Saved By Lydia E. Pinkham's Vegetable Compound—Her Story Interesting.

Elmo, Mo.—"I think your Vegetable Compound is wonderful for it has helped me. I had four doctors and they said I had female troubles and a tumor and nothing but an operation would help me. I could not sit still long enough to eat, and could sleep hardly any I was in so much misery with pains in my side and back.

"A year ago last spring my doctor gave me up, and he was surprised to see me this spring and to see my condition. I give Lydia E. Pinkham's Vegetable Compound the praise wherever I go for I know I would not be here today or have our fine baby boy if I had not taken it."—Mrs. SARAH J. STUART, R.F.D. No. 2, Box 16, Elmo, Mo.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

ENGINEER URGES NEW SURVEY OF CITY

NO ACTION TO BE
TAKEN THIS YEAR

Sewer Work to Be Done by
Owners, and City Will Re-
imburse Later

Not feeling that the money will be available for the present year, the streets committee of the city council yesterday left over to the next council the provision of an official map of the city, which it is known is badly needed to define street lines after a proper survey has been made of the city, which the city engineer, thinks will be of inestimable benefit.

In his report Mr. Rust said in part: "We have had a great deal of trouble recently owing to there being no proper survey of the city, and owing to the large amount of work on hand the survey department has had to define street lines upon very short notice, and the information upon the matter is very difficult to obtain. Very often there are no records beyond some very old plans and note books which have been left by previous surveyors. In addition I understand that a number of the maps in the land registry office are incorrect. The official Map Amendment Act provided that the council could instruct the city engineer to define street lines, and place monuments (the same to be registered as an amendment to the official map) on all streets which were not already defined. Not more than two of the streets have ever been so defined, I am informed."

Sewer Work.
A number of cases were taken of applications for sewers, of which the owners of property offered to pay the cost, if they would be reimbursed when the city again has funds. A notable case was that of Easman street, where the owners guarantee \$1,000. The committee also gave the city solicitor authority to draw up agreements of this character upon receipt of a cheque to cover the cost of the work. The city engineer will deal with cases where sewers are to be constructed at once, for which owners will pay meanwhile.

Oak Bay Junction.
The council will be recommended to appoint a committee to meet representatives of the B. C. Electric railway with regard to placing a convenience and shelter at the triangular space purchased by the city for street improvement at the junction of Fort street and Oak Bay avenue, and planting a shrubbery on the land, which will not be required to be thrown into the street. Aldermen Stewart and Gleason and the engineer will act for the city.

Street Flusher.
The committee did not adopt a proposal to alter the street flusher recently purchased, to use it for hauling crushed rock until there is more water available, holding that it would not be good business to use a \$7,000 machine for such a purpose.

The engineer said there were difficulties in the way of adopting a proposal of Alderman Anderson for using salt water in it.

Improvements.
The land purchasing agent will be asked to inquire concerning the cost of 102 square feet required to improve the corner of Quadra and Blanchard street, to avert the danger of collision at that point.

It was decided to leave with the aldermen of the ward, Aldermen Okell and Beard, the finding of a new name for Selkirk avenue, Victoria West, to avoid conflicting with Selkirk road, Rock Bay district.

Boundary Roads.
The committee did not find any means of relieving the situation so far as water main on the North Dairy road (a boundary road), is concerned, as the Saanich council will not pay half the cost of constructing it. In the district municipality all this work is now done under the local improvement plan, and there is no expenditure from the general revenue for this purpose.

Mr. Rust said the applicant for the main was annoyed at the position in which he found himself—a taxpayer of the city without water, owing to the location of his house.

TESTIFIES FOR DEFENCE.

Witness Declare Lawrence Leaders Urged People Not to Use Violence.

Salem, Mass., Nov. 9.—Witnesses at the courthouse were crowded before court opened yesterday with mill workers from Lawrence, present to testify for the defence in the murder trial of Ettore Giovannetti and Caruso, charged with responsibility for the death of Anna Lopizzo.

Sabato Gange, mill worker, testified that he heard Ettore and Giovannetti make public speeches several times, always urging the people not to use violence. The witness gave his recollection of Giovannetti's much-discussed speech on the Lawrence common. In this he said the defendant urged the strikers to go home and rest after the parade and to keep away from the police and soldiers in Canal street, "because they are looking for your blood like wild animals."

This version of the speech is in contradiction of state witnesses, who testified that Giovannetti told the strikers to "prowl like wild animals and seek the blood of the scabs."

John Thwaites, inventor of a patent flue, was found poisoned at the top of the ladder by which he had ascended a chimney-shaft 66 ft. high at the Stillwell Brick Company's yard, Fletton, Peterborough. He had suffered from insomnia, and a verdict of "Suicide whilst of unsound mind" was returned at the inquest.

SUFFERED AGONY FROM DYSPESIA

"Fruit-a-tives" Makes Wonderful Cure.

N. C. STIRLING, ESQ.

"Glencoe, Ont., Aug. 15, 1911.
"So much has been said and written about 'Fruit-a-tives' that it might seem unnecessary for me to add my experience."

"But 'Fruit-a-tives' were so beneficial to me when I suffered with distressing Dyspepsia, that I feel called upon to inform you of the remarkable and satisfactory results I have had from using them."

"Dyspepsia and Indigestion as everyone knows, can give you more uncomfortable hours and days than most common complaints."

"I am glad to be able to say to you that although in the past I suffered excruciating agony with Dyspepsia, I am now in perfect health."

"'Fruit-a-tives' accomplished the desired result and I have to thank them for my very favorable and satisfactory state of health."

"N. C. STIRLING."

ABOUT OURSELVES

We are aware that the public are often skeptical about buying away from their own city, but it is GOOD BUSINESS ALWAYS to see what others are doing. For the past two years we have specialized in Saskatoon properties. During that time we have sold more than a thousand lots, and the early purchasers who have sold have made big profits. Those who only bought a few months ago can double their money now and it is and will be our business to re-sell for you when you are ready to take a profit. We are here to stay and our success depends on the success of our clients.

DEVONIAN CONCERT.

Is to Be Given at Victoria Theatre This
Evening.

A grand gala concert will be given this evening at the Victoria theatre under the auspices of the Victoria Devonians, and with the patronage of His Honor the Lieutenant-Governor and Mrs. Paterson. An excellent programme has been arranged, and songs, dances, recitations and vaudeville turns will give a variety of entertainment which could not well be rivalled by any entertainment company. Chief among the interesting features will be the grand tableau with which the proceedings will conclude, this being in the nature of an allegory on Canada's naval position at the present time. The object of the entertainment is to clear the debt in connection with the Camosun fort erected on the burnt-out area on Government street at the time of the recent ducal visit. The following is the programme for this evening:

- Part I.
Overture.
1. Recital—"A Devon Bachelor".....
W. B. Parkyn.
2. Vocal solo—"The Veteran Song".....
J. Gilliam.
3. Vocal solo—"Beloved, It is Morn"....
Madam Marie Wood.
4. Dance solo—"A Coon Dance".....
Mlle. Viola (Miss Violet A. Vickers).
5. Vocal solo—"I Fear No Fox".....
Robert Morrison.
6. Vocal duet—"The Gipsy Duet".....
Madame Marie Wood and J. Dunford.
7. Banjo duet—"Sailors' Chants".....
Messrs. Pattle and Watts.
8. and 9. Dialogue sketches—"The Xmas Baby," "Waking the Young Uns," "Nicky Vro.".....
W. B. Parkyn.
Part II.
10. Vocal solo—"Glorious Devon".....
J. Gilliam.
11. Vocal solo—"I Hear You Calling Me".....
Robert Morrison.
12. Dance Brilliante.....
Mlle. Viola (Miss Violet A. Vickers).
13. Vocal solo—"Good-Bye".....
Madame Marie Wood.
14. French Impersonation—"Mons. Leonce in London".....
W. B. Parkyn.
15. Vocal solo—"Heroes and Gentlemen".....
J. Dunford.
16. Devonshire song—"Jan's Courtship".....
W. B. Parkyn.
17. Italian dance.....
Mlle. Viola (Miss Violet A. Vickers).
18. Grand tableau—"Britannia Armed".....
Specially staged by Messrs. P. Kay and W. H. Crammer.
Allegory: In the hour of danger the spirit of Sir Francis Drake, of the aged ship Golden Hind, revisits Britannia and offers his sword and flag. Britannia points to Canada's unmanly naval state, Drake then turns and lays his flag at her feet, Canada's mides en-

fold her in the Union Jack and the four nations go to Britannia's support.
God Save the King.

OBITUARY RECORD

The death took place this morning at St. Joseph's hospital of Frank Street, an Anglo-Indian, born at Monem, Burma. The deceased, who was 48 years of age, was a landscape gardener by profession, and had lived in this city for the last two years, his home being at Rockhill Cottage, Ormond street. He is survived by his widow and two daughters. The funeral will take place on Tuesday afternoon next at 2 o'clock from the B. C. Funeral parlors, and fifteen minutes later from Christ Church cathedral, where Rev. Dean Douglass will officiate.

The funeral of the late Thomas Hardy will take place to-morrow afternoon at 2.30 from the Victoria Undertaking parlors, under the auspices of the Tailors' Union, Rev. Mr. Tapscott officiating.

Council and School Board
Fight Over New Build-
ings Ends

One upshot of the meeting of the finance committees of the school board and city council this week is seen in a notice which is posted for consideration on Monday night.

It seeks to rescind the motion passed on October 17, 1911, which prohibits the building inspector from issuing permits for school premises until the officer shall have satisfied himself that the work projected compares with the plans, and that they will come within the estimates, and also that the controller shall report in writing "that the estimated cost does not exceed the vote, or the appropriation for the special purpose."

As a matter of fact this resolution has been hanging like the sword of Damocles over the school board for months, and arose from the dispute with the board in ex-Mayor Morley's time about extra votes for schools when the original appropriations were inadequate. The permits for the new High school and the two new public schools have never been issued, although there has been no attempt to interfere with construction, for the school debentures have been unsold like those of the city. So it was impossible for the officials named to certify that the conditions called for in the resolution have been carried out. The board has always contended that the council has no authority whatever to regulate this phase, their duty being simply to supply the money as soon as it was required.

The situation over the last cheque for the High school building brought matters to a head, and the recent conference was the logical result of this impasse, embarrassed as the city is today in connection with financial matters till the debentures are sold. Amendments of the pound by-law, and to regulate the keeping of dogs, also to control the use of gasoline, and several local improvement additional loan by-laws will be before the council for approval. The latter cover Chester street (from Dallas road to Woodstock avenue), Kings road (two places), Dunedin street, north, and McKenzie street (Linden avenue to Moss street). There will also be a by-law to legalize the transfer of land to G. H. Barnard, M. P. in exchange for other land on Rockland avenue, in connection with

ALBERTA MINISTER LEAVES.

Hon. Charles Mitchell Returns to Edmonton After Visit to Coast.

Hon. Charles Mitchell, minister of works for Alberta, left on Thursday for Edmonton after a visit to Victoria and Vancouver. The minister is one of the leading members of the Sifton cabinet. "Alberta," he said, "is enjoying the

benefits of the railway policy adopted by the Sifton administration in favor of guaranteeing the bonds of various railway enterprises. He mentioned that no less than 500 miles of branch lines will be built there this year. The province has granted aid to no less than four different railways radiating from Edmonton and tapping various sections of the northern portion of the province. The present objectives of these lines, ranging from northeast to northwest, are Dunvegan, Grand Prairie, Peace River and Fort McMurray." Mr. Mitchell added that the people of Alberta, especially of the central section, were looking for closer trade relations with British Columbia following the completion of the Canadian Northern main line across the Rockies

and down to the coast. It was an accepted opinion among all classes that this line would form a leading grain route for the export of Alberta wheat to Europe via the ports on the Pacific.
New Site Secured.—It is understood that the site for the new drill hall in this city has been handed over to the militia department and the work on the building will be commenced very shortly. The information was conveyed in a despatch from Ottawa this morning. The province provides the new site in lieu of that of the existing drill hall which will be handed over by the Dominion to the province in order to leave Parliament Square free for the provincial buildings.

W. D. CAROE TO LECTURE.

Eminent Architect to Give an Address on "Westminster Abbey."

Next Monday evening at 8.30, under the auspices of the University Women's Club, W. D. Caroe, M. A., of London, England, will lecture on the subject of "Westminster Abbey." Mr. Caroe, who is at present visiting Victoria for the purpose of judging the plans for the Provincial University buildings, is a prominent English architect, being architect to the Ecclesiastical Commissioners, to Canterbury cathedral and Christ Church, Oxford, and consulting architect to St. Paul's

and Westminster Abbey. One of the latest works on which he is engaged is the government laboratories, that are being built at Bushey Park, near London, and another work which he designed was the new archbishop's palace at Canterbury. A small admission fee will be charged, and a good attendance is looked for, the meeting being open to the public.

COLONIST BUILDING.

To Establish Editorial and Printing Departments on View Street Next Year.

The Colonist newspaper is to be housed in a two or three storey building

on View street, adjoining the Sayward block. The property was purchased yesterday afternoon from Lieut.-Col. Currie and others. It has a frontage of 42 feet on View street and 120 feet depth.

When the building is completed a new printing press and other machinery will be installed. Suitable quarters will also be arranged for the newsboys who attend to the circulation. The business office will remain in its present location.

NO NEGLIGENCE IN ACCIDENT ON COOK

Claim for \$500 Arising Out of Collision Between Bicyclist and Motor Dismissed

Judge Lampman yesterday afternoon dismissed an action to recover \$500 damages brought by John S. McKee, superintendent for the Westholme Lumber Company, against R. P. Rithet & Company, the damages claimed being for injuries received by the plaintiff through a collision between himself on a bicycle, and a motor truck belonging to the defendant company and driven by their employee, Frank Higgins, who appeared for the plaintiff, announces that an appeal will be taken.

The plaintiff was riding a bicycle southerly along Cook street. He stopped at a drug store at the corner of Fort street, and on continuing his journey passed a cart going south and then took a turn to cross Cook street to the west side and come back towards Fort street. While making the turn to the west side he was struck by the motor truck, which came across Fort street south along Cook street behind the plaintiff, and without sounding an alarm. The truck wheels passed over the plaintiff's leg, and he considered the defendants' driver in failing to sound an alarm had been guilty of negligence.

In finding against the plaintiff Judge Lampman said he could not see that any statutory condition had been broken by the defendant. If the plaintiff had kept on his course he would have kept right ahead of the motor truck and out of its way. His honor said he knew that drivers of motor trucks were often very fond of tooting their horns, and thought the answer that defendant's driver had not tooted his horn on the occasion of the accident, was quite right, as he had to put on his brakes. His honor came to the conclusion that there had not been negligence. Mr. Mayer appeared for the company.

OAK BAY PARK.

Sale Is Being Considered—To Go Before Directors—A New Truck.

The communication from the Oak Bay council in reference to the selling of Oak Bay park is now being considered by A. T. Goward, the local manager. The council have intimated their desire of purchasing a part or whole of the park if suitable terms can be arranged between the parties. In event of only a portion of the park being available for sale, the council desire

that it shall be the part fronting on the sea.

Naturally the matter will have to go before the directors of the company in London, but Mr. Goward personally is in favor of the section desired by Oak Bay being sold, and the remainder being kept as a recreation ground to be rented to athletic or football clubs. In all probability, the local manager will suggest this mode of procedure to the directors of the company. The B. C. E. railway will soon add

to its equipment a three-ton motor propelled, repair tower and cable truck for use on Victoria lines.

NEW TITLES.

Among the many new books which are being put upon the shelves to-day the following new titles will be of interest to readers in the city and suburbs. Some of these have been asked for repeatedly and all books which have been published either this year or last

The list is: Man Who Lived Mexico; Great Pacific Coast; Secret of the Pacific; Commonwealth of Australia; Trekking the Great Thirst; Women of the Caesars; Suggestions and Psychotherapy; Scientific Mental Healing; Man and Superman; Distinctive Homesites at Moderate Cost; Among the Idolmakers (by the editor of the Hibbert Journal). A large batch of new books is being put on the shelves to-day, among which will be several works of fiction in addition to the books already mentioned.

Range Talks By The Housekeeper No. 4 - Subject - More Important Features

Oven Door.

"You may buy a 'Kootenay' range, as I did, without a Reservoir, then—Decide you want one. Well, call on the McClary dealer and have one sent up—there's a place provided for it on the 'Kootenay.' Attaching it is an easy job. No stove expert required—a screw-driver is the only tool you need. I put my Reservoir on in a jiffy.

Kootenay Steel Range has a Drop Oven Door—it makes a good shelf for sliding things into the Oven. The handle of the door clamps Oven tight—or leaves it open a little bit if you desire to cool it.

The 'Kootenay' Warming Closet is bigger and better than ever. The 'Lift' door allows every inch of space to be used and you can depend on it keeping food nice and hot.

The Broiler Door on the 'Kootenay' is roomy—large enough to broil a steak to perfection. You can replenish fire through this door without disturbing cooking on top of Range.

It's easy to fit the 'Kootenay' with an ideal hot water equipment—one that will not increase fuel consumption in the least.

High Warming Closet.

"All in all you'll find the 'Kootenay' Range the best you can buy, and—the Price is reasonable—just about what you'd gladly pay for a perfect cooking and baking range."

HOW LONG TREES TAKE TO GROW AN INCH

After hardwood trees obtain a certain age it takes from four to six years for them to grow an inch. Sometimes the rate of increase depends on the locality in which they grow. Hickory trees west of the Allegheny mountains, for instance, grow an inch in a little less than five years, but east of the Alleghenies it takes almost six years to grow an inch. As a rule, however, the results from all localities are practically the same. Poplars need only four years in which to grow an inch; ash trees about five years; oak trees about four years and one-half.

The popularity of Ghirardelli's Ground Chocolate isn't growing by inches, but by leaps and bounds. This increasing demand is due to over 60 years of painstaking care and thought in producing a perfect product.

Ghirardelli's Ground Chocolate

THE OUTLOOK.

Sunday School Convention. The officers of the provincial Sunday School Association have conferred upon the Sabbath school workers of this city and province great and priceless privileges in bringing to us such able men and women, not merely to give addresses, but to teach those who occupy the place of teachers in this great work. A great trouble with many so-called experts and specialists is that they simply solve the workers' problems in theory or at best by their phraseology; but this week we have had men and women in this city who do really know whereof they speak. Rev. W. Brown, of Chicago, is a veritable mine of information and can turn the material out to the highest possible advantage. We have many others whose names we do not mention but who are equally good, and have accomplished just as much.

METHODIST.

Metropolitan. Activity.—The church has been a Mecca to which all kinds of religious workers have wended their way during the past few days. Of course, the Sunday school convention has occupied a large part of time, and has done so with splendid effect. It has been one of the most successful conventions held in recent years and at times has occupied the full plant of the church. In spite of the inclement weather the sessions have been largely attended.

Another series of meetings which possess a good deal of significance were those called at the instance of Rev. Dr. Moore, of the Temperance Prohibition and Moral Reform department of the Methodist Church of Canada. These meetings were for the purpose of amalgamating the various church committees on the question into one central union. Very successful work of a far-reaching nature is confidently expected of the new organization.

Mission Circle. The members of this organization wish to announce that in company with the members of the Educational Club, and the children of Miss Walker's class, they will conduct a sale of work on the afternoon and evening of Friday, November 15. In addition to useful and fancy articles, there will be refreshments of various kinds on sale. The proceeds will be devoted to the various objects for which the organizations work.

Centennial. Epworth League.—A very interesting meeting of the Epworth League was held on Monday evening last when the Rev. H. H. Balderston gave a most instructive and enjoyable talk on "The Value of Life." A good crowd was

present. **Board Meeting.**—The quarterly meeting of the official board was held on Tuesday evening last and much routine work, including the appointment of standing committees, was carried out. A resolution calling upon the trustees to provide more room for the overcrowded Sunday school, especially the primary department was unanimously passed.

Business Meetings.—On Wednesday afternoon and evening respectively the members of the ladies' and gentlemen's Bible classes held their monthly business meetings. Great interest was shown in the work of the two organizations, and action taken to advance the efficiency of them.

Choir Prepare.—The choir under their new leader has commenced preparations for their special Xmas music and show promise of splendid results. **To-morrow's Services.**—To-morrow morning at the usual hour Rev. G. Hartwell, superintendent of Oriental missions in B. C., will conduct the service. The pastor will occupy the pulpit in the evening.

James Bay.

Scholars to Entertain.—Next Wednesday evening in keeping with the fixed winter policy of the school, the scholars will be hosts at a reception tendered to their parents in the body of the church. A very large and interesting company is anticipated.

Victoria West.

Official Meeting.—The regular quarterly convocation of the church officials was held last Tuesday evening, when reports of the various church activities were submitted showing all places to be in splendid condition. It was decided after some discussion to designate the new church as "Wesley Church." In connection with the opening of the new edifice, which takes place December 1, by Rev. Dr. Chown, there is to be a sale of work and banquet to be given two days later under the auspices of the Ladies' Aid Society.

Epworth League.—A good part of last Monday's meeting was taken up with the election of officers, although most of the retiring officers were re-elected.

Esquimalt.

Adult Class.—The postponed business meeting of the adult Bible class was held at the home of Mrs. Bailey, Esquimalt road, where a splendid representation gathered. A good deal of intensely interesting business was dealt with. Some provided food for fairly warm discussion. The usefulness of the class was largely implemented by the actions it took, and the class is now expected to take hold of some very practical forms of service

in the district in which it is placed. The president occupied the chair and guided discussion with a great deal of tact and skill.

Belmont Avenue.

Sale of Work.—The sale of work which was carried out by the Ladies' Aid under great difficulties of inclement weather, etc., resulted in a very successful issue. The usual features dominated, although novelties were introduced. A concert of splendid musical and literary numbers was given in the evening and attended by a splendid company, who enjoyed to the full the excellent programme.

PRESBYTERIAN.

First Church.

Special Meeting.—A special meeting of the congregation is called to take place on Tuesday evening first at 8 o'clock for the object of hearing the report of the general committee. A full attendance is desired.

To-morrow's Services.—To-morrow the pulpit will be occupied by the Rev. J. L. Campbell, B.D., of Abbotsford, who will conduct services at the usual hours.

BAPTIST.

Emmanuel.

Pastor's Topics.—There will be special services to-morrow, the pastor preaching in the morning on "The Foresight of Faith" and in the evening special thought will be given to young men in response to the appeal of the Y.M.C.A. officials. At that service the theme will be "The Religion of the Young Man of To-day."

Y.P.S.—On Monday evening the Young People's Society will conduct its regular meeting, and the programme will consist of a symposium on the Balkan-Turkish war.

First Church.

Choir Concert.—The members of the choir are holding extra practices each week in preparation for their annual concert which is to be given on the evening of Wednesday, December 11. Sunday School.—The session of the school last Sunday afternoon was of a missionary character. Miss Flora Clark, of Bilimpati, India, who is returning to her work after a year's furlough at home, gave a splendid address. With her on the platform were the Misses Corbett and Woodman, from Nova Scotia. These young ladies are going to the foreign field in the interests of the Maritime Baptist Mission Board. In the school session to-morrow afternoon there will be special features in keeping with "World's Temperance Sunday."

Ladies' Aid Sale.—The annual sale of work conducted by the Ladies' Aid Society will be held in the church building in the afternoon and evening of Tuesday, November 26. Members and friends are requested to keep this date in their memory.

CONGREGATIONAL.

First Church.

Special Services.—To-morrow the pastor will conduct the services with the special themes of the day in mind.

In the morning the temperance movement will be spoken of and in the evening service for young men will be conducted.

Y.P.S.—On Monday evening the Young People's Society will hold their meeting as usual, but it will be in the nature of a "Kind Event." At this meeting every member is expected to subscribe some incident or reading in which kindness is especially dominant.

Concert.—On Tuesday evening, under the auspices of the men's own Bible class a first-class concert is being arranged in which the following are expected to take part: Mrs. W. E. Staneland, Miss Griffiths, Miss Morrison, Miss G. W. Wainman, Miss Davis, Mr. Francis, Miss McIntosh, A. H. Mann, W. H. Davis, B. Sinclair, J. Woodward, A. Pearson, a male quartette and a chorus by the men's own class. The concert will commence at 8.15 p.m. and a cordial invitation is offered.

Noted Visitor.—Next Thursday evening the congregation and the public will be given an opportunity of hearing once again the Rev. J. W. Pedley, of Western Congregational church, Toronto. Mr. Pedley will be remembered kindly by a large number of people as being one of the outstanding ministers on the entire Pacific coast at the time of his pastorate at First Congregational church, Vancouver, some nine years ago. He is to be in Vancouver during this next week in connection with the opening of the new edifice for First Congregation of Vancouver, and will visit and preach here next Thursday evening at the regular mid-week service.

DEPT. 65 DOMINION WATCH CO., MONTREAL, CANADA

Just because Vancouver, although the largest and most prosperous city of Western Canada, at present possesses no opera house, what is undoubtedly one of the finest musical bodies ever brought to the Pacific coast has been obliged to strike that city from its 1912 itinerary and music-loving Vancouverites will have to pay a week-end visit to the Capital on Saturday, the 23rd instant, if they desire not to miss Herr Andreas Dippel's personally selected company of Chicago Grand Opera principals in the most notable artistic triumph since Mascagni's "Cavalleria"—the Wolf-Ferrari masterpiece, "The Secret of Suzanne."

The company offering this great work, while its success is still fresh and vivid in the great art circles of the world, is made up exclusively of Grand Opera principals from Chicago and the Metropolitan, headed by Mme. Jenny Dufau, the French creator of the soprano title part in Paris two years ago; the famous Sig. Francesco Daddi, tenor of Metropolitan Opera renown; Mme. Marie Cavan; Sig. Alfredo Costa, baritone; and other stars of equal celebrity. The company en route to the coast and which plays in Victoria its only Canadian engagement, brings its own complete orchestra, conducted by Sig. Attilio Parvelli, and of which the concert-master is the well known Steindel, Lurvey (who was last season's piano soloist with Mme. Gadski) and a number of others also have previously visited the coast as concert virtuosi being members of the instrumental contingent.

The identical settings, costumes, effects, etc., used in the sensational successful New York and Chicago productions will be brought; and the opera, which like Mascagni's masterpiece, requires little more than an hour in its interpretation, will be preceded by a concert with full orchestral accompaniment, in which the alternating principals of the company will all be heard, these being selected from a list containing such names as those of Amado Bassi, Mario Sammarco, Bernardo Bernardi, Venturini, Carolina White, Minnie Saltzman-Stevens, Malatesta, Schorr, Dufrenoy, Giacconi, Dalmores, and Cavan. That Mme. Marie Cavan will be one of those selected for the Coast and Victoria is already decided by Mr. Dippel, while it is also expected that another of the chosen will be Ch. Dalmores.

The opera production is under the personal direction of Frenand Almans, stage director of the Chicago Grand Opera.

That Victoria is to enjoy this forthcoming treat of treats is the result of a combination of persistent urging upon Mr. Dippel of that city's appreciation of good music and of Vancouver's present inability to offer a theatre or opera house regarded as at all possible of utilization for such an event. According to present arrangements only Denver, Salt Lake City, Los Angeles, San Francisco, Portland, Seattle and Victoria will be favored with performances during the flying coast tour of the Andreas Dippel forces.

"The Secret of Suzanne" is endorsed by European critics as a veritable novelty in opera and the most melodious composition of the past quarter century. No less conservative and authoritative a musician than Richard Strauss declares that it is "Mozartian in its true melodic quality," a "profoundly scholarly and at the same time superlatively delightful work of true genius." In America—where it has as yet been heard only by New York, Chicago, Philadelphia, and St. Louis—Reginald de Kovin says that "distinguished, artistically elegant, are the words which perhaps best characterize Wolf-Ferrari's opera which made an immediate and deserving success with the brilliant audience. It is so refined, so essentially melodious and so thoroughly musically and original in idea and treatment that it fairly enfolds one with a charm that is rather subtle than obvious."

The Victoria presentation being on a Saturday no doubt many Vancouverites will take advantage of the occasion to pay a week-end visit to the Capital with the opera as a most excellent excuse. Victoria's loyal devotion to Vancouver's own horse show demands perhaps such social reciprocity.

"A Most Valuable Food"

At a time when the preparation of artificial foodstuffs is receiving more attention than ever before, and when new forms of easily assimilable fat to take the place of cod liver oil are being frequently brought to the notice of the medical profession, it is desirable that some of the older forms of administering natural fats should not be forgotten. Among natural fats, butter easily takes first place for nutritive value, and when combined with a suitable soluble carbohydrate, a most valuable food is produced.

The BUTTER SCOTCH, which Messrs. Callard & Bowser (Duke's Road, Euston Road, W. C.) have prepared for fifty years, is such an article, which has the great advantage of being palatable, so palatable, in fact, that children are more likely to need restraining from excess than any previous form of fat. This BUTTER SCOTCH is stated to contain 11.7 per cent. of fat and 74.3 per cent. of sugar, and the results of an analysis which we have made recently of a specimen substantially confirm these figures; further chemical examination of the extract showed it to be genuine butter fat. This confection can therefore be recommended, not only as a harmless sweetmeat, but also as a very useful addition to the diet in suitable cases. In all the Principal candy stores in Victoria.

turer, R. D. Baumgardt, includes Victoria as one of the places in which he is to give three of his educational series. The subjects include an illustrated epitome of the History of Civilization, which embraces all the salient features and characteristic men intimate with the progress of humanity. An evening with the stars, an intelligent study not technically intricate and illustrated from celestial pictures taken from the latest giant telescopes. The matinee is reserved for Napoleon Bonaparte. The Tuesday Club of Sacramento, California, says: "The Tuesday Club wishes you to lecture again this year. All the members of the programme committee feel as I do that we have never had as good a lecturer and none who has been recalled to lecture annually. We must have you this year for four lectures." Mr. Baumgardt lectures in the opera house on November 15 and 16, with a matinee on Saturday afternoon.

Mme. Tarquinia Tarquini, the famous and beautiful lyric soprano of the Covent Garden (London) Grand Opera Company, who is now making her first American tour with the Lombardi (Pacific Coast) Grand Opera Company, will be heard in this country for a brief period of but thirteen weeks. She has been "loaned," as it were, to America for that short space of time. She will then hasten back to the English capital, where she will again give her incomparable renditions of Strauss's Salome, and the sensational Conchita, the new work of Riccardo Zandonati.

During Tarquini's Pacific Coast season with the Lombardi forces she is to be heard in the three operas best calculated to display her beautiful lyric voice and her unusual versatility as an

HYMAN B. ADLER, AT THE EMPRESS THEATRE NEXT WEEK.

actress. London critics are a unit in the statement that, aside from her perfect singing, she is one of the most graceful artists in the realm of grand opera.

"Conchita," the new Zandonati opera, which received its American premiere a few weeks ago at San Francisco, (not even having yet been produced in New York or Chicago), is to be included in the repertoire to be sung at the Victoria theatre, this city, when the Lombardi artists open their three days engagement. The opera will be staged exactly as it was produced in London, with the identical scenery, lighting and other stage effects. The Lombardi engagement at the Victoria theatre will open on Thursday night, December 5. There will be a popular priced matinee on Saturday, December 8.

Romano Theatre.
To-day's programme at the Romano will include pictures of the attempted assassination of the ex-President Roosevelt, and of his assailant. Among the scenes the pictures show are the Kilpatrick hotel, in front of which Roosevelt was shot; the emergency hospital, where Roosevelt's wound was examined and treated; Clinton Urbigues, who claims the distinction of being the first man to tackle Schrank after the shooting; the county jail where Schrank will be held until his trial in December, and Schrank being taken to the courthouse and back to jail.

The management beg to announce that the noted "Romano" orchestra are again in evidence. Those who have never heard the Romano trio have an opportunity of doing so when witnessing the best picture plays that money can buy.

The Princess.
"Big-Hearted Jim" will be seen at the Princess theatre the coming week. It is a southern comedy drama, and combines some thrilling and dramatic incidents, with a pretty love story, and a strong comedy element. The Preston family are suspected of making moonshine whiskey, and the officers of the law, headed by Col. Bailey, a near neighbor, go to hunt for the still. In the course of their search they stumble on trace of a valuable mica mine. Col. Bailey also discovers that his only daughter, whom he expects to make the wife of a prominent government

official, is in love with Jim Preston. Some time before the opening of the story an officer has been killed and the younger son, Harry Preston, is accused of the murder, and is now hiding in the hills. This part of the plot gives the reason for one of the strongest dramatic incidents ever seen on any stage, and accounts for the appearance of the late President McKinley in an important scene.

The comedy element is very strong and calls for a typical Southern servant. The scenery and stage effects are all Southern in tone. Miss Mildred Page will have a splendid part in Madeline Bailey, Mr. Van Dyke, Mr. Belasco, Mr. Alden and Mr. Williams are all well cast, and Miss Josephine Rice, as the mother, will have the best part she has yet had a chance to play. "Big-Hearted Jim" all week Wednesday and Saturday matinees.

The Empress Theatre.
Hyman B. Adler, a well-known Metropolitan stock actor, who recently was recruited for the vaudeville stage, comes to the Empress theatre next week at the head of a good company which presents the feature act—a sketch which will doubtless create much interest. "The Miser's Dream," the vehicle in which Mr. Adler appears, is a comedy-drama in a nutshell, and has some excellent situations and much comedy. Mr. Adler, who is possessed of a good tenor voice, sings during the action of the sketch. He is assisted by Daisy Stempill, last here in the cast of "Seven Days," and Merlin Valentine, who appeared in the Savage production of "The Thief."

A trio of young men who can dance, sing and make merry to the huge delight of any audience, are Davey, DeMuey and Getsey, who will be an additional feature of next week's bill at the Empress. Critics in the cities in which they have appeared have asserted that they are a talented company of performers. They have good voices and have a good line of burlesque.

A direct importation from across the Atlantic by Sullivan & Considine is Leonard Matineck and his rag doll. This act is said to be one of the biggest foreign novelties seen in vaudeville this season. Matineck has just completed a four months' engagement at Wintergarten at Berlin, and he is

SUMMERLAND

Summer has gone for another year, yet even the leaden skies of early November cannot hide the charm of "SUMMERLAND." When this property was known far and wide as the Heatherbell Orchards it was famous for its surpassing beauty. None of that beauty has been taken away by our careful subdivision of the tract. We have merely apportioned it in ample summer home lots for the business and professional men and other citizens who will appreciate a really delightful summer home, right near

store and office. "Summerland," lying on a gentle slope towards the waters of the placid Esquimalt Lagoon, sheltered from the prevailing summer winds, yet enjoying the summer sunshine to the fullest extent, "Summerland" is the kind of property that makes a man think he is miles away in the country, when, in reality, he is near enough to town to get in and out very handily.

A SUMMERLAND FRUIT TREE

Vari-sized lots to suit all tastes. Reservations now being made rapidly. Select in parties and choose your own neighbors! All main streets being graded without expense to buyers. Public landing

at waterfront gives every lot owner access to Lagoon, with its splendid boating and bathing. Excellent fishing and shooting nearby.

Furnished house to rent in nice locality—\$45.00 per month.
150 acres good land, good timber, at \$40.00 per acre, should be \$60.00 per acre, situated close to Comox Station, Englishman's River, and about 2½ miles from McBride's Station, junction of Alberni and Comox Railway. About two and a quarter million feet valuable timber, free of taxes and government royalty. Quite a number of houses and settlers in the vicinity of this property. We recommend this as a great money maker, having a knowledge of its value. Call and see plan and get further particulars.

Cheap Island Farms for Real Settlers

If you want to go back to the land, the source of all true wealth, this is the greatest opportunity you are likely to have on Vancouver Island. Some of those who own property near this, say we are foolish to sell so cheaply, but we want to see the place settled and we are willing to make a concession.

This land is first class, rich, deep ranch soil that will grow anything natural to this climate. It is divided into tracts of 5 acres each. It lies close to Victoria, in a delightful district, right on the new Saanich Electric line, and with a station in its midst. This means a market and transportation for all you can produce, and THAT means good money in your bank.

LOOK HERE—FOR BONA FIDE SETTLERS

The prices of this fine property start at only \$450 an acre and ascend very little. The terms are very moderate: One-fifth cash, balance 1, 2, 3 and 4 years at only 6 per cent.

This is the first announcement. It will "start something," so you had better speak soon.

SHOOTING FATALITY GRIEVES COURTENAY

NEWSPAPER ENTERS AT NORTH OF ISLAND

Royal Bank Buys Site—Canadian Collieries Are Building Houses and Coal Railroad

Comox, Nov. 9.—One of the saddest shooting fatalities of Courtenay's history took place to-day, when Charlie McKenzie, 13 years of age, accidentally shot himself with a .22 rifle. He was the youngest son of John McKenzie, blacksmith, who has resided here for over thirty years. The boy went off with his rifle unknown to his parents and without companions in the afternoon. Evening came and he failed to put in his appearance, and toward night it was taken for granted that he had gone over to his brother's house some short distance away. In the morning when his brother was asked if Charlie had been at his place, and giving an answer in the negative, a search was made. About two in the afternoon his father and brother found him on the Indian reserve about one mile from home. He was dead, having shot himself accidentally. The bullet entered below the ribs, penetrating the heart and lodging in the left shoulder. Great sorrow is felt for the parents, as the lad was the youngest of the family and he was a general favorite with his playmates and everybody else. The funeral is delayed to allow his brothers and sisters to attend.

The home of Courtenay's first newspaper is being rushed in anticipation of the arrival of the plant, together with the editor and manager, Mr. Borden. The enterprise is rousing considerable interest in the district. It will get a royal welcome as this, the oldest valley in British Columbia, has long waited the event of possessing its own paper. The businessmen have all pledged their support in a very laudable manner, all willing to forgo party politics if need be to make the issue a success. The town is very fortunate in possessing an editor for its paper of the calibre of Mr. Borden, who has a wide experience in the management and editing of papers elsewhere. The paper will be Conservative in politics but broad in its views. It will be issued weekly. The paper itself will be of good material and well printed. The social, religious, political and sporting doings of the district around Courtenay will have ample records and accounts of their activities. Attention will be also paid to the job printing needs of the community.

The Royal Bank of Canada has purchased the corner lot above the Riverside hotel from Mr. Joseph McPhee. The price paid was \$3,000. Just when

SCALES, DANDRUFF AND ITCHING

Head so Itchy Could Hardly Stand It. Dandruff Showed on Coat Collar. Cuticura Soap and Ointment Cured in One Month.

225 Elizabeth St., Montreal, Que.—"Cuticura Soap and Ointment cured me permanently from dandruff and scalp itch that I was suffering with since over a year. I had an inflammation of the lungs and a very strong fever. When I recovered, my head was covered with scales and dandruff, and it was so itchy I could hardly stand it. The dandruff showed on my coat collar. I had used various medicines without relief. I heard of Cuticura Soap and Ointment and decided to try them, and I am very glad of it, because I am perfectly cured. I used two boxes of Cuticura Ointment with the Cuticura Soap. It took one month to cure. I take pleasure in recommending Cuticura Soap and Ointment to anyone who is suffering with scalp or skin diseases." (Signed) Hector Perras, Dec. 30, 1911.

TO REMOVE DANDRUFF

Prevent falling hair, remove crusts and scales, and allay itching and irritation of the scalp, frequent shampooing with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment, afford the speediest and most economical treatment. They assist in promoting the growth and beauty of the hair by removing those conditions which tend to make it dry, thin, and lifeless, often leading to premature grayness and loss of hair. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 25-p. Skin Book. Address post card Potter Drug & Chem. the new bank is to be built is not known.

Mr. and Mrs. John Johnston, of the Courtenay hotel, are leaving to-day for California, where they expect to spend a two-months' holiday.

The Presbyterian new church seems to be with sight. A large sum of money was raised at the basket social held last evening. A splendid concert preceded the auctioning of the basket and the other entertainments held the many who attended well on to midnight.

The Canadian Collieries (Dunsmuir), Ltd., have begun building the first instalment, twenty-five houses, of residences at No. 8 mine. The work of sinking the new mine shaft is progressing rapidly. It is now down about four hundred feet, and passes through a narrow seam of coal. The grading of the new coal railway is being rushed along by steam shovel, and the lumber for the bridge work is being turned out by the sawmill as rapidly as possible.

You Can Light YOUR House With

ACETYLENE

Even though you cannot get city gas or electricity, you can get a better light—ACETYLENE.

An Acetylene lighting system can be installed in your home, without cutting up floors or walls, and at small expense.

Then—you can say good-bye to the smoky, smelly coal-oil lamps, the smoky chimneys, the uneven wicks, and the disagreeable job of keeping them in order.

Then—you can have in every room a light that is really daylight's counter-part—a light that is soft, white, pleasant and remarkably easy on the eyes—a light that shows colors as they really are, and makes reading a greater pleasure than ever.

With all these advantages you'll get more light for your money; for Acetylene costs only from ½ to ¾ as much as coal oil light of equal brightness.

Then why not have Acetylene? Write us and we'll tell you all about how to put in an Acetylene system, what it costs, and how much light it will give you for every cent in cost.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

Be considerate and give no offence. Especially must those in employ be careful. General good fortune is indicated, and by keeping on the alert you will see an unusual number of things which can be turned to your advantage.

Those born to-day will be fortunate in their undertakings and generally successful in public life. Their faults will be those of the haughty and proud.

Birthday
Congratulations

EMINENT CANADIAN JUDGE TELLS HIS EXPERIENCE WITH PEPS

Canadian Judges, Senators of the Dominion Parliament, eminent medical men, and men and women famous in all walks of life speak highly of "Peps" the great "Breathable Cure" for coughs, colds, bronchitis, and all lung and chest complaints.

Don't you think that this must mean quality?

Most assuredly! If this were otherwise, one would not have an eminent lawyer like Judge Fisher of Pembroke speaking a dignified word in Peps' favor. Here is a letter from the Judge. We doubt if there is another remedy in Canada to-day for which a Canadian Judge has given his testimony!

Judge's Chambers,
Pembroke, Ont.

To the Proprietors of Peps, Toronto.
Dear Sirs:—

Some time ago I had occasion to go to Montreal, accompanied by my daughter, who unfortunately contracted a cold. At night she was unable to get to sleep owing to a persistent and irritating cough. A friend urged her to try your preparation, "Peps." She used them and they promptly allayed her cough and permitted her to get to sleep. It gives me pleasure to tell you of the prompt relief "Peps" gave her.

Yours truly,
(Signed) A. A. FISHER.

Peps are small pastilles containing certain medicinal ingredients, which when placed upon the tongue immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the capillaries and tiny air sacs in the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, Peps fumes get there direct; and at once commence their work of healing.

All druggists and stores sell Peps at 50c. a box or post free from Peps Co., Dupont Street, Toronto, for price. Send 1c. stamp for trial packet and booklet telling all about Peps.

FREE TRIAL

Send this coupon, a stamp for postage, and name of this paper, to Peps Co., Toronto, and we will send a free trial packet of Peps.

WILL MR. BOWSER TRY VICTORIA?

LATEST MOVE POINTS
IN THAT DIRECTION

Is About to Erect Handsome
Residence in This City
Where He Will Reside

Some time ago, when the Times announced that Hon. W. J. Bowser had awarded a contract to Macdonald & Wilson for the erection of a palatial residence on "Rockland" avenue, there was considerable conjecture as to what effect this simple proceeding would have upon the political situation in Victoria. There is no doubt that it is the attorney-general's intention, in erecting a costly house here, to have his legal domicile in this city, and it is equally undoubted that such a move would involve his decapitation as a representative of Vancouver in the legislature.

He cannot be member for the terminal city and reside here. Neither can he live in both places, although all members of the government he could most nearly approach that phenomenon. Though Victoria would be willing to part with him long enough to enable him to still qualify as a resident of Vancouver, it is feared the metropolis across the gulf would not be so magnanimous. That being so, it is safe to assume that Mr. Bowser intends to withdraw from the "solid five" in Vancouver and try his luck in the local political arena. This would indicate that he feels the representation of Vancouver slipping from him; that he cannot immerse himself in his duties here and "keep his eyes on the ball" in Vancouver at the same time. It would be easier to represent Victoria and do so.

If Mr. Bowser determines to pursue the latter course, who, of the "solid four," is to be dropped? Is Sir Richard going to retire? If not is there room for him and the aggressive attorney-general in the same quartette? Can two such stars keep their motion in one sphere? In any event the handsome new home the attorney-general is about to erect will be a desirable addition to the imposing array which already adorn Victoria's charming residential district.

COUNCIL GETS BACK BY-LAW FROM REEVE

Road Tax Measure to Have
Reconsideration on Monday Night

At a special meeting of the Esquimalt council last night the reeve referred back to the council the by-law passed last Monday night, under which it was authorized that a road tax of \$2 should be levied on persons within the bounds of the municipality. The by-law had been passed against the wishes of the reeve, and he said last night that under the municipal act he had the power to refer the matter back to the council in preference to vetoing it. The matter will probably be brought up before the council again on Monday night.

On Monday night when the council meets again there will be several by-laws before them. Notice of motion was given to introduce a motion for the appointment of an engineer and a building inspector, and another motion for the provision of a garbage receptacle and one for a municipal pound. The reeve announced that he would suggest the ward system to the council for consideration.

By-laws were considered last night that were for the regulation of streets, traffic and public health. On Monday night the council will finally consider the running of cattle at large in the municipality, legislating against it by by-law. The by-law will provide that cattle shall not be on the street at night, and that during the day shall be in charge of a herder.

GASOLINE ESTABLISHMENTS.

By-law Will Be Ready for Monday—
Electric Wiring to Be Rearranged.

The by-law to fix the regulations for the use of gasoline in garages and dry cleaning establishments will be ready for Monday evening's meeting of the city council. It was expected at the last meeting, but, however, was not ready on account of the city solicitor having to attend the court of appeal in Vancouver. The subject is an urgent one owing to the increase in the use of gasoline in various ways.

Another subject which has considerable bearing on fire protection is the proposed by-law amending the present regulations dealing with electric wiring. The inspector is to make a return of the fees received by Monday, so that a basis of payment is to be found in the future. The inspector has been paid by fees, but it is more than probable that the new method will be a salary based on the average earnings over the lengthy term he has held office.

See "Collingwood" First and Then Decide on Your Next Investment

Nothing in Victoria Residential Property at the Price and Terms Can Begin to Compare With This Property of Ours and It Is Selling Fast

BECAUSE OF ITS SITUATION, "COLLINGWOOD" APPEALS TO INVESTORS. IT IS RIGHT ON THE NEW SAANICH LINE, AND VALUES ARE SURE TO RISE WHEN THE NEW LINE IS IN OPERATION A SHORT TIME.

Mr. Citizen, Why Don't You Think of Making a Good Investment in

COLLINGWOOD

THE HIGH-GRADE, LOW-PRICED SUBDIVISION FRONTING ON CAREY ROAD, A MAIN TRUNK CITY ARTERY AND FACING ONE OF THE PRINCIPAL STATIONS OF THE NEW SAANICH CAR LINE, WHICH IS TO BEGIN OPERATION ON THE 20TH OF NEXT MONTH.

Values in "Collingwood" are certain to advance as soon as this line is completed. This line means excellent transportation facilities for "Collingwood." The station will lie directly opposite the property at an easy distance. All the section surrounding "Collingwood" is building up very fast. Adjacent subdivisions have sold out in record time, and many re-sales have been made recently at marked advance in prices.

"Collingwood" is bound to be one of the finest suburban residential sections of Victoria. It has every natural advantage conducive to that end. Glanford avenue lies to the rear of the subdivision, and the Victoria & Sidney Railway line is within a few rods.

"Collingwood" lots are selling fast. Inquiries are coming in from the prairie and from the mainland to supplement local demand. If you are open to the claims of an absolutely gilt-edged investment, requiring only a little capital, this is YOUR opportunity.

LIQUIDATION IN NEW YORK MARKET
SLIGHT REACTION IN GRANBY SMELTER

Bear Pressure Result of Unsettled Condition in Foreign Exchanges
Shares in Demand at Present Prices—Remainder of List Quiet

(Courtesy F. W. Stevenson & Co.)
New York, Nov. 9.—The unsettled condition in the foreign markets and the advices to the effect that complications are imminent as a result of the situation in the Balkans, was reflected by heavy liquidation and bear pressure to-day. While Europe sold moderately the bulk of selling appeared to be for domestic account. The market rallied moderately on the close, but the undertone was not very steady, and at no time during the session was support tendered of a very aggressive nature.
The phenomenal increase in the Steel statement of unfilled tonnage of 1,024,600 tons took the street by surprise, and is to be regarded as a strong indication of the satisfactory condition of steel and iron industry. However, the domestic underlying conditions are not receiving much consideration at present, it being conceded that money position and international politics are governing influences.

WHEAT STRONGER IN CHICAGO PIT

Balkan Situation a Bear Factor—Strong Cash Premiums in Minneapolis

(Courtesy F. W. Stevenson & Co.)
Chicago, Nov. 9.—Traders are forced to modify their opinions based on bearish conditions by the fact that Europe in a way upset over the political prospects, and this uneasiness spreads over the grain trade. It was on this feeling that the bull market late to-day was based when the December price again advanced close to 90 cents, and May went to about a cent over the close yesterday. At the outset Liverpool was moderately advanced on the political news from Southeastern Europe. British consuls were a fraction lower. Trade here started to follow the foreign strength, but with aggressive selling at a little advance. Renewal of stiff cash premiums at Minneapolis and readiness of outside markets to follow the lead here encouraged buyers the last hour.

FAMOUS CANTATRICE

CHARMS VICTORIANS

Mme. Gadske's Beautiful Voice
Heard to Full Advantage
Last Night

A record house was present last evening for the concert given by Madame Johanna Gadske, when the famous singer gave another of those carefully arranged programmes which have made her various appearances in American cities of fresh interest every time she has favored them with a visit. As usual Madame Gadske was exquisitely gowned, and wore a necklace and tiara of scintillating diamonds. Throughout she was accompanied by Edwin Schneider, who proved a sympathetic and intelligent player.

The opening group of songs was comprised of two Brahms selections, two Wolf numbers, and a trio of songs by Strauss, all of which, with one exception, were sung in German, the last—"Das Geheimnis"—proving the most popular of the series. This was followed by prolonged encores, for which the singer gave the "Erl Koening," so confidently anticipated as one of the evening's encores. This is one of the most stirring dramatic things when properly sung, and Madame Gadske's rendering has become classical in the respect. In a sense there was so much that was simply dramatic in her interpretation that even without the splendid accompaniment of the uncanny music the recital would have been wonderful. The series of six English songs were all instructive, some pleasing, but did not show the singer in her best element. There was a fine generosity in the composers chosen, and two numbers by Mr. Schneider were given with unusual sympathy and with such effect that the author had to rise twice or thrice to acknowledge the applause which was due to him jointly with the beautiful singer. This series was followed by "Annie Laurie," in which an occasional lapse into the German use of "W" gave an unusual piquancy; and an Irish song which diplomatically satisfied that section of her audience. The final suite, however, found Gadske in her best element, the three arias from Wagner being given with all the wonderful vocal control, breadth of tone, dramatic expression, and clear ringing voice which have made the diva's singing of Elsa and Brunhilde world famous. This and the "Battle Cry" from Die Walkure, which she gave as an encore, were a fresh revelation of the singer's wonderful art, and she was called back again and again to acknowledge the applause of the audience, repeating the weird cry once again before finally leaving the platform.

Mr. Schneider's part as accompanist was, as said, faultlessly carried out, and the several pianoforte solo which he gave during the evening were excellently received. A Romance by Schubert; and Debussy's "Rain in the Garden," were finished solos, and well deserved the applause which was so spontaneously accorded them. The player showing ability both as virtuoso and interpreter. Altogether the concert has contributed considerably to the laurels of the Ladies' Musical Club, who made it possible for such an unusual musical treat to be indulged in by Victorians.

In 1911 the United States life insurance companies received \$13,977,981 in renewal premiums.

Coquitlam Terminal of Cascade Division

C. P. R. Train Crews Have Orders to Make Up Freight Trains and Start Them From Coquitlam—New Yard Office.

COQUITLAM, Oct. 26.—The first unit of the C. P. R. terminal at Coquitlam will be completed early in December, and already preparations are under way for their immediate use. Mr. F. W. Peters, general superintendent of the railway in this division; Mr. A. E. Stevens, his assistant, and Mr. G. E. Graham, of the Vancouver division, inspected the plant this week.

Already notice has gone forth to freight crews that from December 15 the freight trains of the Cascade division will be made up and start from Coquitlam, which will be the home terminal of such trains. This will affect at the present time about twelve train crews, together with a number of machinists, switching crews, yard men, clerks, etc., numbering in all about 250 men, with a monthly pay roll of about \$25,000. This order means that all the officials concerned will have to make their home in Coquitlam.

Tenders for the construction of a yard office, to be situated near the dump, have been invited. The building will be 30 feet by 65 feet in size, with a concrete foundation and a frame superstructure.

EVERY PREDICTION we made concerning Coquitlam a year ago will come true, as the one regarding the trainmen has just been fulfilled.

ARE YOU going to keep on listening to the senseless, prejudiced, ill-informed enemies of Coquitlam, or are you going to come for your information to this great, big, reliable, solid corporation, which knows what it is talking about?

COQUITLAM is the ONE new town that everybody is commenting on as the new city that is making good, and more than good in every respect—promising MUCH and fulfilling MORE.

Send your name and address for literature and to be listed for the beautiful booklet "Coquitlam, the Industrial City," now in preparation. Limited edition.

COWAN'S PERFECTION COCOA

A MUSCLE-BUILDING FOOD

Growing youngsters work hard. They need food that is nourishing—food that satisfies the hunger and digests easily. Nothing is better for them than Cowan's Perfection Cocoa. Ground from the fresh Cocoa Beans, it has all the food value of pure Cocoa. It builds up the muscles and makes children healthy and strong. A cup of Cowan's made with half or one-third milk is a properly balanced food—one that the most delicate stomach can digest. And it is so delicious that it tempts the appetite when all other foods fail.

NORTHEAST SEWER.

More Springs Are Struck—Will Vets Carry Work Through?

It is doubtful if the funds available will secure completion of the northeast sewer to Cedar Hill road this year. After a great deal of effort it was found possible to scrape together \$25,000 for this purpose, but the cost of the work done since a recommencement was

made after the inquiry has been considered. More springs have been struck, and there is an expensive deep cut to be negotiated in order to tie up the parts already built.

The weather now is also against work of this character, and the physical difficulties encountered have prevented it from being rushed in the way the engineering department has hoped it would be done. It may be necessary to call for an additional vote, although a strict watch is being exercised over the items charged to that fund. General sewer work necessitated by the com-

pletion of paving operations is not to be charged against the northeast sewer. The difficulties about the personnel of the men employed, whose grievances formed so large a part of the material collected at the recent inquiry, appear to have abated, and work is proceeding smoothly.
